We draw reference to the following Code of Practices as format for template drawings.

(1) **Fire Safety Act**  
- **Part IV Control of Fire Safety Works**

This part stipulates application with plans accompanied with written declaration by the Qualified Person in accordance with Fire Code and comply with provisions of Fire Safety Act and any regulations made.

Please refer to the following website to obtain information.  

(2) **Fire Safety (Building Fire Safety) Regulations**  
- **Part II Administration**

This part stipulates:  
- Scale of Plan  
- Particulars to be shown on plans  
- Particulars to be shown on plans for air-conditioning, mechanical ventilation and fire protection works

Please refer to the following website to obtain information.  

(3) **Building Control Act**  
- **Part VI Cl 49 and 50**

This part stipulates application with plan complying with Building Control Regulations and adoption of Codes and Standards.

Please refer to the following website to obtain information.  

(4) **Building Control Regulations**  
- **Part II Submission and Approval of Plans**

This part stipulates:  
- Preparation of Plans for Approval  
- Scale of Plans  
- Particulars to be shown on building plans

Please refer to the following website to obtain information.  
(5) **Acceptable Codes of Practices**  
- **For various types of fire safety plan submissions**

This table stipulates the acceptable Code of Practices according to the types of plan submission to FSSD.

Please refer to the following website to obtain information.  

(6) **SS CP 83 series**

These CPs are series for construction computer aided design (CAD) stipulating symbols, drafting convention, colour and line type.  
The series replace CP 6- Building drawings, which stipulates on template drawing format.

Please refer to the following website to obtain information.
