HAPPY NEW YEAR
Upcoming Events in 2018

Conferred by The University of Newcastle, Australia

BACHELOR OF CONSTRUCTION MANAGEMENT
(BUILDING) (HONOURS)

Every construction project combines a variety of complex challenges. Managing a project requires a combination of technical understanding of construction processes and resource management, as well as managing their legal and financial aspects.

This Bachelor degree programme: (a) will equip you with the skills and knowledge to manage complexities in construction projects both in Singapore and across the world; and (b) is designed to be a problem-based learning pedagogy to train students to solve real world challenges, develop holistic understanding of construction project environment and portable life-long learning skills. An advanced standing articulation would be eligible for applicants with relevant diploma qualifications.

Venue: BCA Academy
Full-Time (10th Intake): Starting in Feb 2018
Part-Time (5th Intake): Starting in Mar 2018

For more information and to apply for the program, please CLICK HERE!
Conferring by The University of Newcastle, Australia

BACHELOR OF ENGINEERING (HONOURS) (CIVIL)

Civil Engineers are highly demanded in Singapore. In fact, Civil engineering is vital to Singapore’s drive to creating a better built environment and liveable city. The development of mega infrastructure projects as well as re-shaping Singapore’s city landscape will require highly qualified engineers trained in civil discipline. As we build higher and dig deeper underground, there is high prospects for Civil Engineers to design, plan, build, manage and oversee the development of infrastructure/building projects.

This degree programme is designed to allow both GCE ‘A’ level and diploma graduates a pathway to pursue a rewarding career in the built environment.

Venue: BCA Academy
Full-Time (2nd Intake): Starting in Feb 2018

Half-day Seminar

BUILDING PLAN AND MANAGEMENT GROUP
ANNUAL SHARING SESSION 2018
2 February 2018 • 2.00 pm – 5.30 pm • BCA Academy

The seminar serves to provide a platform for QPs and industry stakeholders to:
(a) be updated on new regulatory requirements that are in the pipeline;
(b) gather insights into non-compliances of recent projects based on BCA Building Plan
and Management Group’s observation; and
(c) seek clarification on requirements, and provide feedback to BCA to fine-tune
regulatory requirements.

PROGRAMME HIGHLIGHTS
General Observation of Recent Projects
Overview of BIM adoption for regulatory processing in BCA and the way forward
Design for Maintainability: Façade Access
Lightning Protection System (LPS) in Buildings
Fees Revision: Application for Plans Approval of Building Works

CPD Points
PEB: Pending
BOA-SIA: Pending

2-Day Workshop on Practical Applications of WSH Legislations in Construction Projects through Case Studies

Statutory legislations such as Workplace Safety and Health Act (WSHA) and its subsidiary legislations are not usually easily and fully understood in terms of their intent, meaning and implications by industry practitioners - who either do not have legal background or only possess minimum legal knowledge.

This practical workshop, through interactive learning activities and real-life case studies & court cases, will provide participants a clear understanding and appreciation of legal responsibilities of construction and safety personnel under the WSH Act and regulations.

2-day course on

Construction Contract Administration

Good contract administration is required to manage design specification, contractual agreement, competitive tendering, evaluation, cost control, variations, final accounts, claims and even disputes, this will eventually help to reduce construction costs.

A building project, whether under design build contract or conventional contract type, has to undergo three specific stages namely, design, tender and construction. In all three stages, good contract administration is required to manage design specification, contractual agreement, competitive tendering, evaluation, cost control, variations, final accounts, claims and even disputes. Poor management in any of these aspects would lead to unnecessary claims and disputes and eventually higher construction costs.

1 day Course on The Security of Payment Act – Technicalities and Practicalities

The Security of Payment Act facilitates payments for construction work done or for related goods/services supplied in the building and construction industry. It aims to improve cash flow in the construction industry by giving parties the right to seek progress payments for work done, and to provide quick and low-cost resolution of payment disputes through adjudication.

The course provides an overview of the key essentials in the Security of Payment legislation. It aims to enhance participants’ understanding on the mechanism, requirements and considerations of the Security of Payment Act and discusses payment issues typically encountered in building and construction projects.
