1- Day Seminar by BCA-REDAS  
**Built Environment and Property Prospects Seminar 2013**  
*Formerly known as Construction and Property Prospects Seminar*  

As one of the main engines of growth for Singapore’s economy, the construction and the real estate industry need to respond and adapt quickly to changes in the ever-changing economic and business environments. Against a headwind of challenging global economy and outlook, what lies ahead for the various property markets? What will be the key opportunities, challenges and prospects for the built environment and property sectors in Singapore and the region in the coming years? These pertinent questions would be addressed by renowned speakers at this seminar.

2-day Workshop on **Design of Concrete Structures - Eurocodes versus British Standards**

To prepare local structural engineering practitioners for the adoption of the Eurocodes in the design of reinforced concrete building structures, this 2-day workshop will approach the design of concrete building structures using Eurocodes in a comparison with BS 8110, which has been a familiar code of practice in Singapore. The workshop will contain lectures as well as hands-on tutorial sessions to provide participants with practical design experience.

This workshop is jointly organised by BCA Academy and Protective Technology Research Centre of Nanyang Technological University.

4-Evening Certification Course for **Site Investigation Supervisors**

The Singapore Accreditation Council (SAC) of SPRING Singapore, with the support of Geotechnical Society of Singapore (GeoSS), Building and Construction Authority (BCA) and Land Transport Authority (LTA) is introducing an accreditation scheme for site investigation firms. As part of the accreditation requirements for site investigation firms, site investigation supervisors of the firms are required to undergo a training course on site investigation. Upon successfully completing the course, they can be registered as “**Certified Site Investigation Supervisor**” with GeoSS.

1-Day Workshop on
Programme Risk Management
- Technical Use of Programmes to Control, Manage and Optimise the Project

This workshop will concentrate on good programme management and optimisation strategies and techniques for effectively managing and mitigating the risk and challenges in managing a project towards successful completion. It will also cover tools for avoiding and analysing issues in disputes, and for resolving disputes quickly with minimum cost.

A case study will be used to help participants gain a better understanding of the potential problems and risks arising due to project delays.

**CPD Points**
PEB: Pending
BOA-SIA: Pending
