3-day Course on

Project Management

With construction projects becoming more and more complex, the demand on the knowledge, skills and expertise of the project manager has increased correspondingly. He needs to plan and control many key elements of project management, including time, cost, material, organisation, quality, delivery and safety. He needs the knowledge and skills to manage the building project professionally. He needs to complete and deliver the project to his clients on time and within budget.

Construction managers, consultants, project managers, architects and engineers who are involved in project planning and management should attend this course

**CPD Points**
PEB: Pending
BOA-SIA: Pending
IES-ACES *(for REs/RTOs)*: 12 STUs

17th Run: 22, 23 & 24 Feb 2016
Venue: BCA Academy

Half-day Workshop on Contract Administration Essentials under FIDIC Conditions of Contract for Construction

The FIDIC (Fédération Internationale des Ingénieurs-Conseils) publishes a suite of standard forms of contract which are generally recommended for international construction projects. Under the FIDIC Conditions of Contract for Construction for use in traditional build-only project delivery, the Employer appoints an Engineer to carry out the duties under the contract with the assistance of suitably qualified engineers and other professionals in strict compliance with an administrative protocol.

With opportunities abound for infrastructure and construction developments in the region, the workshop aims to equip those involved or about to be involved in international procurement and contracting with the knowledge and understanding of the contract administration essentials and key practice issues under the FIDIC standard form and to appreciate what is expected of them.

2nd Run Date: 24 Feb 2016 (AM)
Venue: BCA Academy

4-Evening Certification Course
For Site Investigation Supervisors

As part of the accreditation requirements for site investigation firms, site investigation supervisors of the firms are required to undergo a training course on site investigation.

This course will educate the site investigation supervisors on Singapore’s geological background, roles and responsibilities of the supervisors, various methods of soil sampling and field testing methods and good practices in investigation works. This course is jointly organised by BCA Academy and LTA Academy and supported by GeoSS. Upon successfully completing the course, participant can be registered as “Certified Site Investigation Supervisor” with GeoSS.

BACHELOR OF CONSTRUCTION MANAGEMENT
(BUILDING) (HONOURS) – Part Time Mode

Every construction project combines a variety of complex challenges. Managing a project requires a combination of technical understanding of construction processes and resource management, as well as managing their legal and financial aspects.

This Bachelor degree programme: (a) will equip you with the skills and knowledge to manage complexities in construction projects both in Singapore and across the world; and (b) is designed to be a problem-based learning pedagogy to train students to solve real world challenges, develop holistic understanding of construction project environment and portable life-long learning skills. An advanced standing articulation would be eligible for applicants with relevant diploma qualifications.

Venue: BCA Academy

3rd Intake: Starting in Mar 2016

Application Closing: 15 Feb 2016
