1-Day Course on **Good Industry Practices**

- Timber Flooring (21 Jan)
- Painting (18 Feb)
- Aluminium Window (25 Feb)

To meet the rising expectation of homeowners, the *Quality Mark (QM)* Scheme was launched in July 2002 to propel the industry workmanship standards to a greater height. A series of “Good Industry Practices” courses were developed to share with the industry the good practices in respective areas.

**CPD Points** *(where applicable)*

- BOA-SIA: 4 CPD Points
- IES-ACES *(RES/RTOs)*: Pending *(for Aluminium Window only)*

To register for:

- Timber Flooring on 21 Jan 2014; [CLICK HERE!]
- Painting on 18 Feb 2014; [CLICK HERE!]
- Aluminium Window on 25 Feb 2014; [CLICK HERE!]
1-day ASHRAE Distinguished Lecturer Program on Commissioning for New and Existing Buildings in Hot and Humid Climates

This ASHRAE Distinguished Lecturer Program aims to address the increasing awareness of the need for commissioning for new construction and existing buildings to ensure high performance of buildings, to help building professionals keep pace with the international practices and understand the values of building commissioning. Participants will gain a perspective of the ASHRAE Commissioning program which spans across the entire life of the building project, from planning to occupancy.

$55 discount is available for:
• Registration and payment latest by 27 January 2014
• Group of 3 registrations from same organisation
• BCA Young Leaders / BCAA Alumni card holders / ASC members

CPD Points
PEB : 6 PDUs
BOA-SIA : Pending

Date: 11 Feb 2014
To register, CLICK HERE!

13-evening Certification Course for Green Mark Facilities Manager

This course aims to equip Facilities Managers with the knowledge and skills to implement sustainable improvement measures and technology in existing buildings to reduce its energy consumption and environmental impact over its functional life-cycle.

CPD Points
PEB: 39 PDUs
BOA-SIA: 4 CPD Points

Date: 11 Feb – 10 Apr 2014
To register, CLICK HERE!
4-Evening **Certification Course for Site Investigation Supervisors**

As part of the accreditation requirements for site investigation firms, site investigation supervisors of the firms are required to undergo a training course on site investigation.

This course will educate the site investigation supervisors on Singapore’s geological background, roles and responsibilities of the supervisors, various methods of soil sampling and field testing methods and good practices in investigation works. This course is jointly organised by BCA Academy and LTA Academy and supported by GeoSS. Upon successfully completing the course, participant can be registered as “**Certified Site Investigation Supervisor**” with GeoSS.

**CPD Points**

- PEB: Pending
- WSH-CPD (*WSH officers*): Pending
- IES - ACES (*RES/RTOs*): Pending

**Date:** 17, 20, 24 & 25 Feb 2014

**2-Day Course on BIM Planning (Building Developers and Facility Managers)**

Building Information Modelling (BIM) allows the building professionals of various disciplines to explore the building project digitally, before it is built. BIM can help to bring about greater integration and collaboration among the developers, designers, builders and fabricators across the construction value chain.

*Starting with architectural BIM e-submissions in 2013, BCA will mandate electronic submissions in BIM format for architectural, structural and M&E plans of building works for regulatory approval by 2015.* This 2-Day BIM Planning Course is designed to address BIM uses and approaches for building developers and facility managers.

**CPD Points**

- PEB: Pending
- BOA-SIA: 4 CPD Points

**Date:** 17 & 18 Feb 2014

4-Evening Course on **Pile Foundation Design and Construction for Engineers**

All structures are to be supported on sound foundation for their safety and subsequent performance. A good understanding of the pile foundation design principles and construction practices is essential for every practitioner, designer, builder and supervisor involved so that structures will be built and maintained safely throughout the life of the structure.

This course aims to provide participants with an insight into the engineering principles of pile foundation design as well as good construction practices adopted locally with special emphasis on cast-in-place reinforced concrete bored pile compression.

**CPD Points**

**PEB:** Pending  
**IES - ACES (Res/RTOs):** Pending

**Date:** 19, 21, 25 & 27 Feb 2014

1-day Course on **CORENET e-Submission System Training**

CORENET e-Submission System (eSS) is a G2B (Government to Business) Internet-based system that allows industry professionals to submit their projects related documents electronically to regulatory authorities for approval without the constraints of time, nor physical distance.

Objective of the course is to equip users with the skills and knowledge to navigate and use eSS, especially in submitting their applications online. To date eSS is capable of allowing the public to submit electronic plans and documents from their homes and offices to more than 10 different government agencies.

**CPD Points**

**BOA-SIA:** 4 CPD Points

**Date:** 26 Feb 2014
