Building and Construction Authority 19 Jan 2017 to 20 Jan 2017
PRACTICAL APPLICATIONS OF WSH LEGISLATIONS IN CONSTRUCTION PROJECTS THROUGH CASE STUDIES

Statutory legislations such as Workplace Safety and Health Act (WSHA) and its subsidiary legislations are prepared by legal professionals. The structure of the legislation as well as various terms used in the legislation are not usually easily and fully understood in terms of their intent, meaning and implications by industry practitioners who either do not have legal background or only possess minimum legal knowledge. It is important that construction/project managers, supervisors and WSH personnel are educated with better understanding of legal terms, implications of the WSH legislations, responsibilities of stakeholders, liabilities and penalties for non-compliances with respect to managing construction projects.

Venue
BCA Academy, 200 Braddell Road, Singapore 579700

Date and Time
19 Jan 2017 to 20 Jan 2017 0900 to 1730

Fee (incl of GST): S$600.00

Building and Construction Authority 14 Feb 2017 to 14 Feb 2017
GOOD INDUSTRY PRACTICES - ALUMINIUM WINDOW

Windows are major components of buildings allowing for transmission of light, providing view for the occupants and giving a pleasing facade. However, poorly designed and installed windows pose a problem of water seepage. As aluminium frame windows are commonly used in the local industry, the Good Industry Practices Aluminium Window was developed to share with the industry good work practices adopted by practitioners and contractors who have consistently delivered high quality work. This Good Industry Practices highlights the benefits and practical tips on how quality fabrication and site installation can be achieved.

Venue
BCA Academy, 200 Braddell Road, Singapore 579700

Date and Time
14 Feb 2017 to 14 Feb 2017 0900 to 1730

Fee (incl of GST): S$340.00
Lunch & refreshments will be provided.

GOOD INDUSTRY PRACTICES - MARBLE/GRANITE/CERAMIC TILING

Granite, Marble and Ceramic tiling are common finishes in building work. The Good Industry Practices Marble and Granite Finishes and Good Industry Practices Ceramic Tiling were developed to share with the industry
good work practices adopted by practitioners and contractors who have consistently delivered high quality work, providing simple and practical tips to assist designers in selecting tiles and contractors in achieving high quality workmanship. This course highlights the good practices as introduced in the two guidebooks.

**CP5 ON LOW VOLTAGE ELECTRICAL INSTALLATIONS**

The Singapore Standard CP5:1998 Code of Practice for Electrical Installations applies to the design, selection, erection, testing and inspection of electrical installations. It covers all general commercial and industrial electrical installations operating at voltage up to 1000 Volts. The 2-day course aims to provide participants with an understanding of the design and installation guidelines for electrical installations complying with CP5: Code of Practice for Electrical Installations.

**GOOD INDUSTRY PRACTICES - DRYWALL INSTALLATION INCLUDING WET AREAS APPLICATION**

Drywall as internal partition is gaining popularity as one of the leading solutions towards achieving quality finishing with higher productivity. Besides facilitating a cleaner, quieter and environmental-friendly worksite, drywall construction is quicker with lesser labour requirement. The use of drywall internal partition is encouraged and recognized under CONQUAS 8th edition and forms part of the CONQUAS Enhancement Series on Good Industry Practices. This GIP course aims to highlight the benefits and good practices of drywall installation introduced in the GIP practice guide book on Drywall Internal Partition and extends the knowledge to other applications for wet areas and Prefabricated Bathroom Unit (PBU).

GOOD INDUSTRY PRACTICES - TIMBER FLOORING

Timber flooring is widely used in building works. Having good understanding and knowledge on the types of timber flooring, their components, the right ways to handle, install and maintain them would enable the stakeholders to improve the workmanship standards of such flooring. With the emergence of engineered wood flooring due to its superior quality, environmental friendliness and ease of handling, this course has been enhanced to cover topics on engineered wood flooring. With the revamped content, this course, which covers the salient points of two Good Industry Practices (GIP) guidebooks, namely, Timber Flooring and Engineered Wood Flooring, will further align the industry towards quality and productivity improvements.

Venue

CONTRACT ADMINISTRATION ESSENTIALS UNDER FIDIC CONDITIONS OF CONTRACT FOR CONSTRUCTION

The FIDIC (Fédération Internationale des Ingénieurs-Consultants) publishes a suite of standard forms of contract which are generally recommended for international construction projects. Under the FIDIC Conditions of Contract for Construction for use in traditional build-only project delivery, the Employer appoints an Engineer to carry out the duties under the contract with the assistance of suitably qualified engineers and other professionals in strict compliance with an administrative protocol.
