Part-time SPECIALIST DIPLOMA PROGRAMMES

Build up your capability with our range of Built Environment Specialist Diplomas

Choose from

- STACKABLE MODULAR Certificates
  Complete 1 or 2 certificates or all 3 to earn a Specialist Diploma
  Architectural Technology ● Interior & Landscape Design

- PRODUCTIVITY Series
  Design for Manufacturing & Assembly ● Lean Construction ● MEP Modularisation

- BIM Series
  Computational BIM (Building) ● Virtual Design & Construction

Available Funding
- WTU Funding
- SkillsFuture Credit
- SkillsFuture Study Award
(Terms & Conditions apply)

Sign up NOW, registration closing on 1 Feb 2019.

Our next intake will be starting from 18 Feb 2019 onwards.

Half-day Workshop on

Building Plan and Management Group Annual Sharing

The workshop serves to provide a platform for QPs and industry stakeholders to be updated on new regulatory requirements that are in the pipeline; seek clarification on requirements, and provide feedback to BCA to fine-tune regulatory requirements for the built environment.

CPD Points
PEB: Pending
BOA-SIA: Pending

2nd Run Date: 28 Feb 2019 (2.00pm – 5.30pm)
Venue: BCA Academy

To register, CLICK HERE!
1/2-day Course on
Building Control Regulations for Site Supervisors

This course is jointly organised by BCA Academy and the Joint Accreditation Committee (JAC) of Institution of Engineers Singapore (IES) and Association of Consulting Engineers Singapore (ACES) which accredits qualified site supervisors such as Resident Engineers (RE) and Resident Technical Officers (RTO). This course is aimed at educating newly accredited site supervisors on Singapore's legal framework for building construction and building control regulation requirements.

**CPD Points**
- IES-ACES (RES/RTOs): Pending (Structural + Safety)
- PEB: Pending
- WSH-CPD (WSH Officers): 4 SDUs
- SPM: Pending

54th Run Date: 25 Feb 2019 (am)
Venue: BCA Academy

2-day Course on
Behavioural Safety for The Construction Industry

While safety is influenced by a number of factors, positive behaviour from workers towards safety is considered one of the key factors in preventing accidents at workplace. A successful introduction of behavioural safety process, focusing on identifying and reducing unsafe behaviour and reinforcing safe behaviour, is one way to improve safety at workplace.

- Behavioural Safety is a methodology used to improve safety culture through change of behaviour of working personnel in an organisation. This methodology has been applied successfully in other industries, namely in petrochemical and manufacturing sector, and is gaining popularity in the construction industry.

**CPD POINTS**
- PEB: Pending
- WSH-CPD (for WSH Officers): 14 SDUs
- IES-ACES (for REs/RTOs): Pending (Safety)

25th Run Date: 6 & 7 Mar 2019
Venue: BCA Academy

2-day Course on
CP5 on Low Voltage Electrical Installations

The Singapore Standard CP5:1998 Code of Practice for Electrical Installations applies to the design, selection, erection, testing and inspection of electrical installations. It covers all general commercial and industrial electrical installations operating at voltages up to 1000 Volts.

The 2-day course aims to provide participants with an understanding of the design and installation guidelines for electrical installations complying with CP5: Code of Practice for Electrical Installations.

**CPD Points**
PEB: Pending

11th Run Date: 11 & 12 Mar 2019
Venue: BCA Academy

---

3-Day Course on
Project Management

With construction projects becoming more and more complex, the demand on the knowledge, skills and expertise of the project manager has increased correspondingly. This includes planning and controlling multiple key elements of project management, including time, cost, material, organisation, quality, delivery and safety. It is important that the project manager has the necessary knowledge and skill set to manage the building project professionally so as to complete and deliver the project to his clients on time and within budget.

Construction managers, consultants, project managers, architects and engineers who are involved in project planning and management should attend this course.

**CPD Points**
PEB: Pending
BOA-SIA: Pending
IES-ACES (for RES/RTOs): Pending

27th Run: 13, 14 & 15 Mar 2019
Venue: BCA Academy

To register, CLICK HERE!
3.5-day course on

Certificate in Façade Inspection

The Certificate in Façade Inspection course is designed to equip participants with essential knowledge in façade inspection. On top of legislative framework and requirements on façade inspection, participants will gain an in-depth understanding of the fundamentals of various façade systems and materials, their typical defects and inspection methods.

**CPD Points**
- PEB: 21 PDUs
- BOA-SIA: 2 CPD Points
- IES-ACES (REs/RTOs): Pending

**7th Run Date:** 13, 14, 15 & 18 Mar 2019  
**Venue:** BCA Academy

1/2-day Course on

Understanding Building Control Regulations – Household and Storey Shelters

The mandatory provision of civil defence (CD) shelters for all new residential developments started in 1998. Owners have the option of providing household shelter within the dwelling unit or storey shelter on each floor. Good knowledge of the guidelines on proper processes and procedures on plan submission and commissioning of Household Shelter (HS) and Storey Shelter (SS) under Building Control Act and Regulations is necessary for both architectural and engineering new entrants.

**CPD Points**
- PEB: Pending
- BOA-SIA: Pending
- IES-ACES (for REs/RTOs): Pending

**3rd Run Date:** 26 Mar 2019 (am)  
**Venue:** BCA Academy
