The BCA Academy has partnered with University College London (UCL), which is ranked 4th in the world, to deliver the first global postgraduate Master of Science degree in Facility and Environment Management in Singapore.

The primary aim of the programme is to enable participants to achieve an integrated understanding of the basic knowledge and operational skills required for the good management of buildings, their environments, facilities and support services. The programme focuses be on effective planning, design, management, maintenance and adaptation of buildings, to ensure they function appropriately and efficiently to meet specified needs.
PROGRAMME STRUCTURE
The two-year part-time programme commences in September every year. It consists of eight modules and a research project. Each module is complemented by site visit and guest lecture by local industry practitioner.
