Seminar Information

This seminar launches the revised SS 532 : 2016 Code of practice for the storage of flammable liquids. The revision resulted in the exclusion of the fire safety requirements for laboratories.

In the update of SS 532, changes were made to the sections on minor storage and safety cabinets, package storage and handling, storage in tanks, piping and tank auxiliaries, operations and firefighting facilities. The changes also include new requirements and the provision of more design options.

About SDO@SCIC

The Singapore Chemical Industry Council Limited (SCIC) was appointed by SPRING Singapore on 1 April 2011 as the Standards Development Organisation (SDO) for the Chemical Standards Committee (CSC). SDO@SCIC administers the development, promotion and implementation of standards in this area.

The Chemical Standards Committee is guided by the industry-led Singapore Standards Council, which provides advice on the directions, policies, strategies and priorities for the Singapore Standardisation Programme, managed by SPRING Singapore, the national standards body.
