Certification Course for
Green Mark Professional (GMP) – REVAMPED
Green Mark Facilities Professional (GMFP) – NEW

In 2005, the Singapore government embarked on the green building movement and launched the BCA Green Mark scheme. The Green Mark scheme, which serves as a benchmark for evaluating environmental sustainability in buildings, has since become a leading green building rating system in the tropics and sub-tropics.

Over the years, the Singapore Green Building Masterplan has also evolved from focusing on new buildings in the 1st masterplan to existing buildings in the 2nd masterplan, and tenants and occupants in the 3rd masterplan.

To equip the industry professionals to adopt and embrace the Green Mark scheme in the design, development, management and maintenance of green buildings, certification courses on Green Mark are offered to building designers, project managers and facilities managers.

Dates: Spread from Mar 2015 to Sep 2015

Application Closing Date: 27 Feb 2015

Venue: BCA Academy

MASTER OF SCIENCE IN
SUSTAINABLE BUILDING DESIGN
by The University of Nottingham, United Kingdom

2015 Intake - Starting in Sep 2015
Application close: 30 April 2015

Provides inter-disciplinary approach to develop design solutions embracing both passive and active environmental technologies and strategies.
Master of Science (MSc) in
FACILITY AND ENVIRONMENT MANAGEMENT
By University College London (UCL), United Kingdom

2015 Intake - Starting in Sep 2015
Application close: 17 April 2015

Acquire integrated understanding of effective planning, design, management, maintenance and adaptation of building stock to function appropriately and efficiently to meet specific needs.
Certificate in Construction Productivity Management

This specially tailored training course aims to equip project managers and construction managers with the practical knowledge to enhance productivity on their construction projects.

The programme is collaboration between BCA Academy and The Singapore Contractors Association Ltd (SCAL). It caters to the specific needs of the contractors and builders in managing construction productivity. The course will be conducted over 12 sessions. There will also be a hands-on assignment for the participants to apply the knowledge learnt.

4-Evening Certification Course  
For Site Investigation Supervisors

As part of the accreditation requirements for site investigation firms, site investigation supervisors of the firms are required to undergo a training course on site investigation.

This course will educate the site investigation supervisors on Singapore’s geological background, roles and responsibilities of the supervisors, various methods of soil sampling and field testing methods and good practices in investigation works. This course is jointly organised by BCA Academy and LTA Academy and supported by GeoSS. Upon successfully completing the course, participants can be registered as “Certified Site Investigation Supervisor” with GeoSS.

**CPD Points**
PEB: Pending
IES-ACES (for REs/RToS): Pending
WSH-CPD (WSH officers): Pending

**Date:** 12th Run Date: 9, 10, 16 & 17 Mar 2015  
**Venue:** BCA Academy/LTA Academy

2-day Workshop on
Protection against Lightning for Buildings

Singapore experiences the highest incidence of lightning strikes in the world. These lightning strikes have caused major disruptions to main systems equipment and considerable damage to building structures.

This 2-day workshop will provide participants with an understanding of the effects of lightning and various lightning protection methods for building structures. It will also cover various analytical methods for the performance assessment of lightning protection systems. The new Singapore Lightning Protection Code SS 555:2010 which is mandatory for building structures in Singapore will be discussed.
