1-Day Course on

Requirements for Environmental Sustainability in Buildings And The Green Mark Scheme

This course aims to:

• provide crucial information and knowledge on the new legislative requirements on Environmental Sustainability for Buildings;
• provide an understanding on the interpretation of the Green Mark Criteria and Scores for new building developments – Residential & Non-residential Buildings;
• provide a better understanding on the submission procedures and walk through of the Green Mark (GM) e-filing system.

CPD Points
PEB: 7 PDUs
BOA-SIA: 6 CPD Points

Date: 1 Mar 2013

Half-Day Course on Understanding the Green Mark Criteria for Existing Buildings and Office Interior

This course will provide participants with a better understanding of the criteria and scores for the Green Mark for Existing Buildings (version 2) and the Green Mark for Office Interior Scheme. Case studies will be used to illustrate the scoring criteria under the schemes.

CPD Points
PEB: Pending
BOA-SIA: 4 CPD Points

Date: 6 Mar 2013

BCA Certified Green Mark Professional (GMP) Programme – 2013

The Certified Green Mark Professional programme is a training and recognition scheme introduced by BCA to raise industry capability in the niche area of Sustainable Design and Development.

The GMP course is offered as a series of short modules focused on design concept, practical green solutions and technologies, and the use of building simulation tools to predict building performance. To pass the course, participants need to complete 6 core modules and 3 elective modules. The next intake of GMP programme is scheduled to commence on 11 March 2013.

Dates: 11 Mar ~ 30 Sep 2013

To register, click here!

Registration Closing Date: Extended to 1st Mar 2013
1-day Course on

Maximising Green Design Through Building Automation

This course will equip participants with the knowledge of the different control concepts and the technologies available to support the development of high performance green buildings. Special focus is placed on maximizing energy savings through proper building automation and controls in particular air-conditioning systems without compromising thermal comfort and indoor air quality. Participants will also gain practical insights on some of the strategies & solutions that have been successfully implemented in international and local award-winning green projects.

Professionals who are interested to learn more about optimize energy, operations and improve indoor comfort through building automation should attend this course.

CPD Points
PEB: Pending
BOA-SIA: 4 CPD Points

6-Month Part-time Course on **Graduate Certificate in Workplace Safety and Health**

The Graduate Certificate in WSH course aims to prepare WSH officers and other WSH personnel in construction industry to be competent WSH auditors or perform the role of an advisor in WSH matters. It is designed to equip participants with the necessary skills and knowledge in legal requirements, planning, implementation, control & reviewing of WSH management system as well as communication and relationship management at managerial level.

**CPD Points**

**WSH-CPD (for WSH officers)**: Pending

**Date**: Starting on **25 Mar 2013**

2-Day Workshop on **BIM Planning (Building Developers and Facility Managers)**

Building Information Modelling (BIM) allows the building professionals of various disciplines to explore the building project digitally, before it is built. BIM can help to bring about greater integration and collaboration among the developers, designers, builders and fabricators across the construction value chain.

Starting with architectural BIM e-submissions in **2013**, BCA will mandate electronic submissions in BIM format for architectural, structural and M&E plans of building works for regulatory approval by **2015**. This 2-Day BIM Planning Course is designed to address BIM uses and approaches for building developers and facility managers.

**CPD Points**
- PEB: Pending
- BOA-SIA: 4 CPD Points

**Date:** 25 & 26 Mar 2013
