1-day ASHRAE Distinguished Lecturer Program on Commissioning for New and Existing Buildings in Hot and Humid Climates

This ASHRAE Distinguished Lecturer Program aims to address to the increasing awareness of the need for commissioning for new construction and existing buildings to ensure high performance of buildings, to help building professionals keep pace with the international practices and understand the values of building commissioning. Participants will gain a perspective of the ASHRAE Commissioning program which spans across the entire life of the building project, from planning to occupancy.

**$55 discount is available for:**
- Registration and payment latest by **27 January 2014**
- Group of 3 registrations from same organisation
- BCA Young Leaders / BCAA Alumni card holders / ASC members

**CPD Points**
PEB : 6 PDUs
BOA-SIA : 2 CPD Points

**Date:**  11 Feb 2014
**To register,** [CLICK HERE!](http://www.bcaa.edu.sg)
4-Evening **Certification Course for Site Investigation Supervisors**

As part of the accreditation requirements for site investigation firms, site investigation supervisors of the firms are required to undergo a training course on site investigation.

This course will educate the site investigation supervisors on Singapore’s geological background, roles and responsibilities of the supervisors, various methods of soil sampling and field testing methods and good practices in investigation works. This course is jointly organised by BCA Academy and LTA Academy and supported by GeoSS. Upon successfully completing the course, participant can be registered as “Certified Site Investigation Supervisor” with GeoSS.

**CPD Points**
- PEB: 13 PDUs
- WSH-CPD (WSH officers): Pending
- IES - ACES (REs/RTOs): 12 STUs

Date: 17, 20, 24 & 25 Feb 2014
To register, CLICK HERE!

4-Evening **Course on Pile Foundation Design and Construction for Engineers**

All structures are to be supported on sound foundation for their safety and subsequent performance. A good understanding of the pile foundation design principles and construction practices is essential for every practitioner, designer, builder and supervisor involved so that structures will be built and maintained safely throughout the life of the structure.

This course aims to provide participants with an insight into the engineering principles of pile foundation design as well as good construction practices adopted locally with special emphasis on cast-in-place reinforced concrete bored pile compression.

**CPD Points**
- PEB: 12 PDUs
- IES - ACES (REs/RTOs): 12 STUs

Date: 19, 21, 25 & 27 Feb 2014
To register, CLICK HERE!
1-day Course on **CORENET e-Submission System Training**

CORENET e-Submission System (eSS) is a G2B (Government to Business) Internet-based system that allows industry professionals to submit their projects related documents electronically to regulatory authorities for approval without the constraints of time, nor physical distance.

Objective of the course is to equip users with the skills and knowledge to navigate and use eSS, especially in submitting their applications online. To date eSS is capable of allowing the public to submit electronic plans and documents from their homes and offices to more than 10 different government agencies.

**CPD Points**

**BOA-SIA**: Pending

**Date**: 11 Mar 2014

1-Day Workshop on **Programme Risk Management - Technical Use of Programmes to Control, Manage and Optimise the Project**

This workshop will concentrate on good programme management and optimisation strategies and techniques for effectively managing and mitigating the risk and challenges in managing a project towards successful completion. It will also cover tools for avoiding and analysing issues in disputes, and for resolving disputes quickly with minimum cost.

A case study will be used to help participants gain a better understanding of the potential problems and risks arising due to project delays.

**CPD Points**
PEB: Pending  
BOA-SIA: Pending

**Date:** 13 Mar 2014

1-Day Course on **Opportunities and Pitfalls of Tendering for MRT Projects and Other Major Infrastructure Projects**

MRT tender preparation and submission need to be carefully and effectively managed to avoid exposing organisation to severe financial penalties and turning a potentially profitable project into a loss-maker. In order to be profitable, a sound tender is vital and risk factors must be eliminated where possible. Thus, a specially tailored 1 day course is proposed to educate and equip construction industry stakeholders a good real insight into a contractor’s experience in tendering for MRT projects and other infrastructure projects

**CPD Points**  
PEB: Pending  
IES-ACES *(for REs/RTOs)*: 3 STUs

**Date:** 18 Mar 2014
