**Course Fee Revision in 2017**
- Course fees will be revised from 20 April 2017.
- To register your training placement at existing course fee, please complete the application and payment before 18 April 2017 (T&C apply).

**Eligible applicant can tap on SkillsFuture initiatives for BCA Academy courses (T&C apply)**
- SkillsFuture Study Award – up to $5,000 for out-of-pocket expenses
- SkillsFuture Credit - $500
- Mid-Career Enhanced Subsidy – up to 90% of course fee

Applicant needs to register for the course and apply for the relevant SkillsFuture initiative accordingly. Visit www.bcaa.edu.sg – “QUICK LINKS” - “SkillsFuture Programmes” for more details.
STANFORD CIFE-BCA Advanced Management Program 2017

VIRTUAL DESIGN & CONSTRUCTION
Stanford University, USA • 4 – 10 May 2017

- WTU Funding / SkillsFuture Study Award are available (T&C apply)
- Early Bird discount for those registered with payment before 13 May 2017, 5pm
- Group & special discount also available (T&C apply)

A 4-module program which include lectures, site visits and 6-monthly check-in sessions conducted in Singapore and Stanford University.

MODULE A: 20 April 2017
Introductory Session, BCA Academy

MODULE B: 4 – 10 May 2017
Intensive VDC training at Stanford University, USA

MODULE C: Starting in June 2017
6 monthly Check-In Sessions, BCA Academy

MODULE D: January 2018
2-day Integration Exercise, BCA Academy

4th Run: Starting on 20 Apr 2017
Registration close on 3 Apr 2017

Venue: Stanford University, USA

1-day Course on **Way-finding and Signage Design**

Way-finding and signage design should be considered holistically as part of the building and facilities planning process. This is to ensure that people can have safe and easy access to amenities and facilities provided in a building. Through this course, the participants will have a good appreciation of how way-finding plays a vital role in Universal Design (UD), especially in supporting the ageing population; learn of the principles, design considerations and communication strategies of way-finding and signage; and be familiar with the design requirements set out in SS 599:2014 Guide for Way-finding Signage in Public Areas. The Instructor, Mr Ken Chong will also share his experiences through the use of positive and negative case-studies.

2-day Certification Course on **BIM for MEP Coordination**

With advent of BIM, the design and installation conflicts among construction elements could be effectively identified, visualized and managed with the use of 3D BIM model. Mechanical, Electrical and Plumbing (MEP) coordination has been identified as one of the most complex tasks of the project delivery process.

This BIM for MEP Coordination course aims to provide participants with the necessary knowledge and skills on how to achieve MEP spatial coordination through BIM with a greater degree of accuracy and collaboration. A series of hands-on, collaborative exercises will be conducted to simulate the real-world scenario of the coordination process from model review all the way to BIM translation to field. As such, participants are able to familiarize themselves with better, more efficient practices in MEP modelling, coordination, and collaboration, which will ultimately contribute to productivity and minimize reworks on site.

1-day Workshop on **Programme Risk Management**
Technical Use of Programmes to Control, Manage and Optimise the Project

This workshop will concentrate on good programme management and optimisation strategies and techniques for effectively managing and mitigating the risk and challenges in managing a project towards successful completion. It will also cover tools for avoiding and analysing issues in disputes, and for resolving disputes quickly with minimum cost.

A case study will be used to help participants gain a better understanding of the potential problems and risks arising due to project delays.

8-Evening course on
Supervision of Deep Underground Construction Works

In recent years, there have been more deep underground construction works in Singapore. Other than MRT stations and tunnels, Singapore is also moving towards rock cavern construction. Remarkable cavern projects include the Underground Ammunition Facility, opened in 2008 by the Singapore Armed Forces; and the Jurong Rock Caverns, opened in September 2014.

With this trend and development, industry professionals need to be trained to supervise deep underground construction works. This course aims to equip site personnel with the knowledge of earth retaining or stabilising structures and deep underground excavation so as to raise their competency to supervise deep construction works safely.

4-Evening **Certification Course**  
**For Site Investigation Supervisors**

As part of the accreditation requirements for site investigation firms, site investigation supervisors of the firms are required to undergo a training course on site investigation.

This course will educate the site investigation supervisors on Singapore's geological background, roles and responsibilities of the supervisors, various methods of soil sampling and field testing methods and good practices in investigation works. This course is jointly organised by BCA Academy and LTA Academy and supported by GeoSS. Upon successfully completing the course, participant can be registered as “Certified Site Investigation Supervisor” with GeoSS.
