WORLD WORKPLACE ASIA 2019

3 - 5 APRIL 2019 | MARINA BAY SANDS | SINGAPORE

Building the Future of Facility Management through Digital Innovation

The World Workplace Asia is back to Singapore for a THIRD run!

Modelled after International Facility Management Association (IFMA)’s flagship World Workplace Conference hosted in United States annually, the World Workplace Asia (WWPA) conference provides a platform for exchanges on pertinent issues and complexities of facility management, in the Asian context. More than 600 delegates, represented by facilities management, property management and real estate professionals, building owners, public sector officials and other decision makers locally and worldwide, attended the inaugural run of the WWPA conference held in Singapore in 2012, and the subsequent run in 2015.

Presented by Building and Construction Authority (BCA), IFMA and the Singapore Chapter of IFMA, the WWPA conference 2019 will be focusing on the theme ‘Building the Future of Facility Management through Digital Innovation’. This year’s conference focuses on technology and innovation, with the attention on digitalisation. The presentations will encompass topics covering pertinent issues in smart facility management, operation & maintenance and real estate.

2-day Course on

**Behavioural Safety for The Construction Industry**

While safety is influenced by a number of factors, positive behaviour from workers towards safety is considered one of the key factors in preventing accidents at workplace. A successful introduction of behavioural safety process, focusing on identifying and reducing unsafe behaviour and reinforcing safe behaviour, is one way to improve safety at workplace.

Behavioural Safety is a methodology used to improve safety culture through change of behaviour of working personnel in an organisation. This methodology has been applied successfully in other industries, namely in petrochemical and manufacturing sector, and is gaining popularity in the construction industry.

**CPD POINTS**
- PEB: Pending
- WSH-CPD (for WSH Officers): 14 SDUs
- IES-ACES (for REs/RTOs): 4 STU (Safety)

**25th Run Date:** 6 & 7 Mar 2019
**Venue:** BCA Academy

---

3-Day Course on

**Project Management**

With construction projects becoming more and more complex, the demand on the knowledge, skills and expertise of the project manager has increased correspondingly. This includes planning and controlling multiple key elements of project management, including time, cost, material, organisation, quality, delivery and safety. It is important that the project manager has the necessary knowledge and skill set to manage the building project professionally so as to complete and deliver the project to his clients on time and within budget.

Construction managers, consultants, project managers, architects and engineers who are involved in project planning and management should attend this course.

2-Day Course on 
Planning & Management of Home Renovation

In an effort to improve the industry to meet the needs of its current and potential renovation contractors, HDB jointly with BCA has launched this course. All existing and new renovation contractors are encouraged to attend the course.

This course is designed to equip participants with the necessary skill and knowledge in planning and managing renovation projects. Particular emphasis is placed on documentation, resource management, quality control, delivering good customer services, designing for home renovation and finally, opportunities for improvement or upgrading of the business.

16th Run Date: 27 & 28 Mar 2019
Venue: BCA Academy

To register, CLICK HERE!

---

1-day course on 
Essentials of Contractors’ All Risks Policy

Construction sites are often exposed to risks. Collapse, flooding, fire, falling debris, accidents involving workers or even damage to third party properties are among the common concerns at on-going project site. This course comprising of lectures and case studies, will enable participants to appreciate basic concepts in risk management and acquire better knowledge of the Contractors’ All Risks (CAR) insurance policy. Besides policy coverage, issues of dealing with CAR claims will also be addressed during the session.

2-day Workshop on  
**Design of Concrete Structures – Eurocodes versus British Standards**

To prepare local structural engineering practitioners for the adoption of the Eurocodes in the design of reinforced concrete building structures, this 2-day workshop will approach the design of concrete building structures using Eurocodes in a comparison with BS 8110, which has been a familiar code of practice in Singapore. The workshop will contain lectures as well as hands-on tutorial sessions to provide participants with practical design experience.

This workshop is jointly organised by BCA Academy and Protective Technology Research Centre of Nanyang Technological University.

2-day course on  
**Finance for Non-Finance Professionals in the Built Environment**

Many professionals in the built environment sector have little or no finance knowledge and experience. The lack of understanding of the financial information hinders them from drafting an accurate budget and making informed business decisions. In the current competitive global economy, there is a need for the built environment professionals to grasp essential key knowledge in the area of finance in order to make more informed business decisions.

This 2-day course is designed to help built environment professionals with little or no prior knowledge in finance to understand and interpret financial data, and how they can be applied in the business and project operations. At the end of the course participants should be able to:
- Understand and interpret the financial statements
- Evaluate the financial performance and health of the business
- Draft an accurate budget
- Apply the concepts in their daily projects and business operations

**4th Run:** 11 & 12 Apr 2019  
**Venue:** BCA Academy

Conferred by The University of Newcastle, Australia

BACHELOR OF ENGINEERING (HONOURS) (CIVIL)

Civil Engineers are highly demanded in Singapore. In fact, Civil engineering is vital to Singapore’s drive to creating a better built environment and liveable city. The development of mega infrastructure projects as well as re-shaping Singapore’s city landscape will require highly qualified engineers trained in civil discipline. As we build higher and dig deeper underground, there is high prospects for Civil Engineers to design, plan, build, manage and oversee the development of infrastructure/building projects.

This degree programme is designed to allow both GCE ‘A’ level and diploma graduates a pathway to pursue a rewarding career in the built environment.

Venue: BCA Academy
Full-Time (3rd Intake): Starting in May 2019
(Application Closing date: Apr 2019)
