Eligible applicant can tap on SkillsFuture initiatives for BCA Academy courses (T&C apply)

- SkillsFuture Study Award – up to $5,000 for out-of-pocket expenses
- SkillsFuture Credit - $500
- Mid-Career Enhanced Subsidy – up to 90% of course fee

These initiatives are only applicable to individual applicant. Eligible applicant needs to register for the course and apply for the relevant SkillsFuture initiative accordingly. Visit www.bcaa.edu.sg – “QUICK LINKS” – “SkillsFuture Programmes” for more details.

Productivity Enhancement - Methods & Processes

Specialist Diploma in **Design for Manufacturing & Assembly (DfMA)**
Starting: 25 July 2016 / Application closing: 27 May 2016

Specialist Diploma in **Lean Construction (LC)**
Starting: 27 July 2016 / Application closing: 27 May 2016

Specialist Diploma in **Virtual Design and Construction (VDC)**
- Module exemptions are available

**WTU FUNDING MAY BE AVAILABLE!**

12-evening Course on

Project Management for Professionals in the Building and Construction Industry

The management of construction projects requires knowledge of modern management as well as an understanding of the design and construction process. The role of project managers is to direct & co-ordinate the processes & resources during the life cycle of a project to achieve the project objectives.

The course aims to prepare professionals in the building and construction industry to take on the role of project managers. The course will equip the participants with necessary knowledge on the practices of project management to successfully manage a building project through all stages of implementation.

3-Evening Workshop on
Site Management of Precast Concrete Construction

Good site management practices and planning of precast concrete construction activities would contribute to more efficient, less labour intensive and faster construction. This interactive workshop provides construction managers with practical knowledge in the planning, execution and control of precast concrete construction. At the end of the programme, participants will be able to plan and manage precast concrete construction site activities effectively.

2-day Workshop on
**Protection against Lightning for Buildings**

Singapore experiences the highest incidence of lightning strikes in the world. These lightning strikes have caused major disruptions to main systems equipment and considerable damage to building structures.

This 2-day workshop will provide participants with an understanding of the effects of lightning and various lightning protection methods for building structures. It will also cover various analytical methods for the performance assessment of lightning protection systems. The new Singapore Lightning Protection Code SS 555:2010 which is mandatory for building structures in Singapore will be discussed.
