Are you:

—

A young and dynamic manager, engineer or technician aged from early 20s to mid-30s?

Experienced in working with or developing standards or conformity assessment schemes?

Working for a company, business or industry that uses or benefits from IEC International Standards or Conformity Assessment Schemes?

Wanting to become more involved in IEC-related activities?

Why attend?

—

Participate in the only annual workshop dedicated to the next generation of experts and leaders on IEC standardization and conformity assessment.

Experience the IEC General Meeting: a key annual event that brings together the IEC technical and management community.

See how International Standards are managed and developed through the opportunity to attend management and technical meetings.

Benefit from increased opportunities to get involved in IEC work after the workshop.

“I would definitely recommend employers to send their YPs to this workshop. It is a great platform where YPs can express their ideas and learn about IEC work. I will use what I learnt to help our customers which will ultimately contribute to increasing my organization’s market share.”

Juan Li, China
Benefits for you

Exceptional networking opportunities with >2,500 international key players.
Build knowledge and expand professional contacts.
Participate in interactive sessions and events where you can exchange with peers.
Have your voice heard: your ideas are reported to IEC management.

Benefits for your company

Be ahead of the technology curve in your field.
Help to ensure technology transfer.
Foster a culture of innovation.
Cultivate long-term involvement in the international arena.

How to register

Contact your National Committee to the IEC for details of the selection process in your country [www.iec.ch/members](http://www.iec.ch/members)

For more information

Please contact Robert McLaren at rml@iec.ch or visit the IEC Young Professionals Programme webpages [www.iec.ch/youngprofessionals](http://www.iec.ch/youngprofessionals)

This workshop has helped me develop my consensus building skills which is essential for IEC work. I also extended my network significantly and had many opportunities to share my technical knowledge with my peers.
