Seminar Information

Date: 30 April 2014 (Wed)
Time: 1:30pm – 5:00pm
Venue: 2 Bukit Merah Central
Auditorium, Podium Block Level 3
Singapore 159835

Fee per pax (inclusive of GST): S$55.60

Closing Date: 25 April 2014

Enquiries:
Ms Paige Tan (Event Manager) Tel: 6295 5478
E-mail: paigetan@eurekacampaign.com
Operating Hours: 9.30am – 5.30pm
Hotline: 6296 4079

How to Register

Please register using the following methods:

1) Email the completed form to: dijie@eurekacampaign.com
2) Fax the completed form to: 6295 5120 or
3) Post the completed form together with cheque to:

SPRING Standard Seminars
c/o Eureka Campaign Associates Pte Ltd
52 Horne Road, #03-01
Singapore 209071

All cheques should be crossed and made payable to Eureka Design and Exhibits Planners. No invoice will be issued.

Registration is on a first-come-first-served basis and will be confirmed upon receipt of full payment. For email and fax registrations, please ensure that your cheque reaches us within 5 working days. No refund will be made for any cancellation. However, a replacement is allowed. The Organiser reserves the right to postpone or cancel the seminar due to unforeseen circumstances.

Cheque Number: _______________ Professional Engineer’s Licence Number: _______________

NRIC No: ________________ (applicable to Professional Engineers only)

This seminar is accredited by the Professional Engineers Board (Pending) and BOA-SIA CPD Programme (2 CPD points)

Supported by:

The Singapore Standardisation Programme is managed by SPRING Singapore.
Introduction

This seminar is part of the on-going industry efforts to raise the local practitioners’ awareness on the use of the Singapore Standard (SS) Structural Eurocodes. The SS Structural Eurocodes have been accepted in the Approved Document of the Building Control Regulations since 1 April 2013. At the end of the co-existence period of two years with the relevant existing SS based on British Standards, the SS Structural Eurocodes will be the only prescribed structural design standards from 1 April 2015.

This seminar focuses on SS Eurocodes for design of bridges (SS EN 1991-2 and SS EN 1992-2). The seminar highlights the Singapore National Annexes on SS EN 1991-2 “Traffic loads on bridges” and SS EN 1992-2 Concrete Bridges – Design and detailing rules” and provides valuable insights into the practical implementation experience of the SS Eurocodes for Bridges covering the material and design aspects. Participants will also receive the latest update on the implementation of the SS Eurocodes in public projects.

Participants will be briefed on the key Structural Eurocodes (SS EN 1991) that addresses comprehensive information and guidance on actions on structures that designers generally need to consider in the design of building and civil engineering structures. The SS EN 1991 series are applicable to design of concrete structures (SS EN 1992), steel structures (SS EN 1993) and composite steel and concrete structures (SS EN 1994).

Who Should Attend
- Civil and Structural Engineers
- Builders, Ready-mixed concrete suppliers, manufacturers of concrete products
- Software developers / vendors for Eurocodes implementation
- Regulatory Agencies

What You Will Learn
- Overview of the SS Eurocodes on Design of Concrete Bridges (SS EN 1991, SS EN 1992-2) and their corresponding National Annexes
- How the standards are used by the Regulators BCA and LTA
- Experience of a design consultancy firm in implementation of Eurocodes
