BCA-REDAS-SGBC Green Building Seminar 2013:
UNFOLD THE TRUE VALUES OF GREEN RETROFITS

To play a part in shaping a greener and more sustainable Singapore, the annual BCA-REDAS-SGBC Green Building Seminar aims to provide a platform for practitioners to gain insights of overseas and local advancement towards green building, its technologies and concepts, business cases and models, as well as exemplary projects. This year, the seminar focuses on retrofitted buildings and speakers from different discipline will share their knowledge and experience.

1-day Seminar on
Integrated Advance Testing and Data Acquisition for 3-D Geological Modelling of Singapore

The seminar will share with the industry on advance site investigation technologies, integrated geoscience mapping systems and geological models for deep underground developments.

This seminar will also present the standardised electronic format AGS(SG) for site investigation data for use in Singapore. The implementation of AGS(SG) will facilitate the ease and seamless transfer, interchange, storage and retrieval of site investigation data which will in turn promote greater sharing and use of geo-data in Singapore.

A guidebook titled “Guidelines for Electronic Transfer of Site Investigation Data” will be given to seminar participants.

“Early-bird” fee for registration before 2 April 13
1-Day Practical Workshop on
Core Logging and Geological Interpretation
for Engineering Works

At the end of the training, participants will be able to:

- Apply the principles of sedimentological and igneous rock core logging
- Demonstrate geological interpretation
- Apply core logging techniques through practical session under the guidance of British Geological Survey’s expert

1-Day Seminar on
Ensuring Safe Design and Construction
Contraventions and Enforcement
(In Compliance with Building Control Act & Regulations)

In this seminar, experienced speakers from regulatory agencies such as BCA, MOM and NEA will share on the common contraventions detected on sites and the enforcement actions taken to reduce such incidents. Information on how proper design and construction works can be carried out such that the works will not cause danger to the public/workers or damage to the surrounding properties will also be shared.

bizSAFE Level 1, 2 & 4 Course

bizSAFE is a programme which is administered by the Workplace Safety and Health Council (WSHC) tailored to assist the Small and Medium Enterprises (SMEs) to build up their workplace safety and health capabilities. The programme provides a 5-level approach to help SME build up their capabilities progressively. SMEs participating in this programme will gain recognition and benefit from having a comprehensive WSH system in place.

bizSAFE Level-1
Date: 23 Apr 2013 To register, click here!

bizSAFE Level-2
Date: 11 & 12 Apr 2013, To register, click here!

bizSAFE Level-4
Date: 15, 16, 22 & 23 Apr 2013, To register, click here!
