Course Fee Revision in 2017
- Course fees will be revised from 20 April 2017.
- To register your training placement at existing course fee, please complete the application and payment before 18 April 2017 (T&C apply).

Eligible applicant can tap on SkillsFuture initiatives for BCA Academy courses (T&C apply)
- SkillsFuture Study Award – up to $5,000 for out-of-pocket expenses
- SkillsFuture Credit - $500
- Mid-Career Enhanced Subsidy – up to 90% of course fee

Applicant needs to register for the course and apply for the relevant SkillsFuture initiative accordingly. Visit www.bcaa.edu.sg – “QUICK LINKS” - “SkillsFuture Programmes” for more details.
BCA-MLIT Seminar on
Driving Transformation Towards Higher Productivity

This half-day seminar serves as a platform for the experts from the Ministry of Land, Infrastructure, Transport and Tourism (MLIT) and major construction companies in Japan to share on topics ranging from policies to advanced technologies adopted by the Japanese construction industry. Participants will be kept abreast on the latest development in construction productivity methodologies and technology adopted by Japanese companies.

2-day course on

Finance for Non-Finance Professionals in the Built Environment

Many professionals in the built environment sector have little or no finance knowledge and experience. The lack of understanding of the financial information hinders them from drafting an accurate budget and making informed business decisions. In the current competitive global economy, there is a need for the built environment professionals to grasp essential key knowledge in the area of finance in order to make more informed business decisions.

This 2-day course is designed to help built environment professionals with little or no prior knowledge in finance to understand and interpret financial data, and how they can be applied in the business and project operations. At the end of the course participants should be able to:

- Understand and interpret the financial statements
- Evaluate the financial performance and health of the business
- Draft an accurate budget
- Apply the concepts in their daily projects and business operations

Date: 4 & 5 Apr 2017
Venue: BCA Academy

Eligible for PIC Scheme / SkillsFuture Credit (T & C apply)
5-evening Workshop on
Geotechnical Design using Eurocode 7

This workshop aims to prepare structural and geotechnical engineering practitioners for the adoption of the Eurocode 7 in Singapore. After attending the workshop, the participants will be able to:

- appreciate the design approach based on the Eurocodes
- appreciate the geotechnical design approach based on SS EN 1997 (EC 7) and Singapore National Annexes
- apply EC 7 for the design of spread and pile foundations
- apply EC 7 for the design of retaining structures
- apply EC 7 for the slope stability and embankment design

**CPD POINTS**
PEB: 15 PDUs
IES-ACES (REs/RTOs): 12 STU (Structural)

**15th Run Date:** 7, 9, 14, 16 & 21 Mar 2017
**Venue:** BCA Academy

3-Evening Workshop on

Site Management of Precast Concrete Construction

Good site management practices and planning of precast concrete construction activities would contribute to more efficient, less labour intensive and faster construction. This interactive workshop provides construction managers with practical knowledge in the planning, execution and control of precast concrete construction. At the end of the programme, participants will be able to plan and manage precast concrete construction site activities effectively.

4-evening Course on
Supervision of Piling Works

Various challenges are present in pile foundation works due to the uncertainties and variability of the ground conditions. Once the piles are installed, they are expected to function throughout their lives. During the lifetime of the building, the foundation is rarely inspected for its continued structural integrity and stability. Supervision of piling works for building foundations is therefore essential and critical in ensuring the quality of construction works and safety of building structures.

This short course imparts to participants the essential knowledge of good construction practices, supervision of piling works, regulatory requirements and testing of pile foundation works.
