Course Fee Revision in 2017
- Course fees will be revised from 20 April 2017.
- To register your training placement at existing course fee, please complete the application and payment before 18 April 2017 (T&C apply).

Eligible applicant can tap on SkillsFuture initiatives for BCA Academy courses (T&C apply)
- SkillsFuture Study Award – up to $5,000 for out-of-pocket expenses
- SkillsFuture Credit - $500
- Mid-Career Enhanced Subsidy – up to 90% of course fee

Applicant needs to register for the course and apply for the relevant SkillsFuture initiative accordingly. Visit www.bcaa.edu.sg – “QUICK LINKS” - “SkillsFuture Programmes” for more details.
1-day Workshop on Programme Risk Management - Technical Use of Programmes to Control, Manage and Optimise the Project

This workshop will concentrate on good programme management and optimisation strategies and techniques for effectively managing and mitigating the risk and challenges in managing a project towards successful completion. It will also cover tools for avoiding and analysing issues in disputes, and for resolving disputes quickly with minimum cost.

A case study will be used to help participants gain a better understanding of the potential problems and risks arising due to project delays.

**CPD Points**
PEB: 6 PDUs
BOA-SIA: 3 CPDs

**13th Run Date:** 16 Mar 2017
**Venue:** BCA Academy

8-Evening course on
Supervision of Deep Underground Construction Works

In recent years, there have been more deep underground construction works in Singapore. Other than MRT stations and tunnels, Singapore is also moving towards rock cavern construction. Remarkable cavern projects include the Underground Ammunition Facility, opened in 2008 by the Singapore Armed Forces; and the Jurong Rock Caverns, opened in September 2014.

With this trend and development, industry professionals need to be trained to supervise deep underground construction works. This course aims to equip site personnel with the knowledge of earth retaining or stabilising structures and deep underground excavation so as to raise their competency to supervise deep construction works safely.

**CPD POINTS**
Peb: Pending
IES-ACES (RES/RTOs): 12 STU (Structural)

4th Run: 20, 22, 27, 29 Mar,
3, 5, 10 & 12 Apr 2017
Venue: BCA Academy

4-Evening **Certification Course**  
**For Site Investigation Supervisors**

As part of the accreditation requirements for site investigation firms, site investigation supervisors of the firms are required to undergo a training course on site investigation.

This course will educate the site investigation supervisors on Singapore’s geological background, roles and responsibilities of the supervisors, various methods of soil sampling and field testing methods and good practices in investigation works. This course is jointly organised by BCA Academy and LTA Academy and supported by GeoSS. Upon successfully completing the course, participant can be registered as “Certified Site Investigation Supervisor” with GeoSS.

1-day Workshop on

**Contract Drafting – The Technicalities and Legalities**

Contract drafting is both an art and science. Merely referring to templates or specimens without having the technical skills and legal knowledge to address the specific needs of a particular project could result in disastrous consequences.

3-day Course on
Project Management

With construction projects becoming more and more complex, the demand on the knowledge, skills and expertise of the project manager has increased correspondingly. He needs to plan and control many key elements of project management, including time, cost, material, organisation, quality, delivery and safety. He needs the knowledge and skills to manage the building project professionally. He needs to complete and deliver the project to his clients on time and within budget.

Construction managers, consultants, project managers, architects and engineers who are involved in project planning and management should attend this course.

1 day Course on **The Security of Payment Act – Technicalities and Practicalities**

The Security of Payment Act facilitates payments for construction work done or for related goods/services supplied in the building and construction industry. It aims to improve cash flow in the construction industry by giving parties the right to seek progress payments for work done, and to provide quick and low-cost resolution of payment disputes through adjudication.

The course provides an overview of the key essentials in the Security of Payment legislation. It aims to enhance participants’ understanding on the mechanism, requirements and considerations of the Security of Payment Act and discusses payment issues typically encountered in building and construction projects.

1-day Course on

Best Practices for Green and Gracious Builder
- Improving Performance and Site Practices

Apart from setting standards for green and gracious practices, the launch of Green and Gracious Builder Scheme (GGBS) in February 2009 is also a benchmark of a builder's corporate social responsibility to the environment and general public. It also helps to improve the image of the builders and built environment sector. A GGBS version 2.1 was introduced in October 2016.

This course aims to equip participants with knowledge to implement and improve green and gracious practices based on the latest requirements of GGBS version 2.1. The course will incorporate a visit to a site managed by Green and Gracious Builders Award winner, where participants will gain first-hand information and insights into successful implementation of best green and gracious practices.
