12-evening Course on

**Project Management for Professionals in the Building and Construction Industry**

The management of construction projects requires knowledge of modern management as well as an understanding of the design and construction process. The role of project managers is to direct & co-ordinate the processes & resources during the life cycle of a project to achieve the project objectives.

The course aims to prepare professionals in the building and construction industry to take on the role of project managers. The course will equip the participants with necessary knowledge on the practices of project management to successfully manage a building project through all stages of implementation.

1-day Course on **Opportunities and Pitfalls of Tendering for MRT Projects and Other Major Infrastructure Projects**

MRT tender preparation and submission need to be carefully and effectively managed to avoid exposing organisation to severe financial penalties and turning a potentially profitable project into a loss-maker. In order to be profitable, a sound tender is vital and risk factors must be eliminated where possible. Thus, this specially tailored 1-day course aims to provide construction industry stakeholders insights into a contractor's experience in tendering for MRT projects and other infrastructure projects.

4-Evening Course on Geotechnical Instrumentation for Engineers

Geotechnical instrumentation plays an important role in the design verification and safety monitoring of geotechnical works. Being a specialised area, engineers and QPs need to be more familiar with instrumentation used for deep excavation, their installation monitoring and interpretation to ensure safety of excavation works and adjacent structures.

**CPD Points**
PEB: Pending
IES & ACES (for REs/RTOs): Pending

18<sup>th</sup> Run Date: 4, 6, 11 & 13 May 2016
Venue: BCA Academy

Certification Course for
Green Mark Facilities Professional (GMFP)

The Green Mark scheme, which serves as a benchmark for evaluating environmental sustainability in buildings, has since become a leading green building rating system in the tropics and sub-tropics.

Over the years, the Singapore Green Building Masterplan has also evolved from focusing on new buildings in the 1st masterplan to existing buildings in the 2nd masterplan, and tenants and occupants in the 3rd masterplan.

To equip the industry professionals to adopt and embrace the Green Mark scheme in the design, development, management and maintenance of green buildings, certification courses on Green Mark are offered to building designers, project managers and facilities managers.

GMFP Batch 3: Starting from 9 Jun 2016
Application Closing Date: 31 May 2016

Venue: BCA Academy
