BCA-NUS-TONGJI UNIVERSITY
ADVANCED MANAGEMENT PROGRAMME 2014
Excellence in Construction Management

• Conducted in Singapore & Shanghai
• Conducted in Mandarin (Shanghai segment)
• Site visits to established megaprojects in Singapore and China

The BCA-NUS-TONGJI University Advanced Management Programme is a specially tailored programme at the leadership level, focusing on excellence in construction management.

A structured blend of academic lecture sessions and experiential learning journeys allows the participants to gain practical insights on best practices and construction management strategies for local and overseas mega/complex projects, especially in China.

About 11% Special Discount is available for:
• Registration and payment latest by 5 June 2014
• Group of 3 registrations from same organisation
• BCA Young Leaders / BCAA Alumni card holders

(REGISTRATION CLOSING : 17 JUN 2014)
4-Evening Course on **Geotechnical Instrumentation for Engineers**

Geotechnical instrumentation plays an important role in the design verification and safety monitoring of geotechnical works. Being a specialised area, engineers and QPs need to be more familiar with instrumentation used for deep excavation, their installation monitoring and interpretation to ensure safety of excavation works and adjacent structures.

**CPD Points**
PEB: 12 PDUs
IES - ACES (REs/RTOs): 12 STUs

**Date:** 20, 22, 27 & 29 May 2014

2-day Workshop on Protection against Lightning for Buildings

Singapore experiences the highest incidence of lightning strikes in the world. These lightning strikes have caused major disruptions to main systems equipment and considerable damage to building structures.

This 2-day workshop will provide participants with an understanding of the effects of lightning and various lightning protection methods for building structures. It will also cover various analytical methods for the performance assessment of lightning protection systems. The new Singapore Lightning Protection Code SS 555:2010 which is mandatory for building structures in Singapore will be discussed.

CPD Points
PEB: 14 PDUs

Date: 4 & 5 Jun 2014

3-day Course on Management of Water and Environmental Services for Estate Managers

*(Partnership with PUB and SEI)*

Property and facilities management is a growing industry in Singapore. With the increasing number of strata residential developments in Singapore and rising expectations from the home occupiers for proper maintenance of the estate, it is essential to equip the estate managers in effective management of their facilities and premises, in particular to the water supply, sanitary, drainage systems and environmental control.

*The course aims to provide an overview of the relevant local authorities’ regulatory requirements and guidelines.* It will highlight the good management and maintenance practices for water, drainage and sewerage services, wet facilities and waste collection system. Water Efficiency Measures will also be covered.

**CPD Points**

**PEB:** 19 PDUs

*Date: 11, 12 & 13 Jun 2014*

1-day Course on CORENET e-Submission System Training

CORENET e-Submission System (eSS) is a G2B (Government to Business) Internet-based system that allows industry professionals to submit their projects related documents electronically to regulatory authorities for approval without the constraints of time, nor physical distance. It is a one-stop, non-stop convenient point of access for round-the-clock submission via the internet, converges all regulatory application requirements, from development & building plans compliance, to building maintenance and certification of statutory completion.

Objective of the course is to equip users with the skills and knowledge to navigate and use eSS, especially in submitting their applications online. To date eSS is capable of allowing the public to submit electronic plans and documents from their homes and offices to more than 10 different government agencies.
