SHAPING AN AGE-FRIENDLY BUILT ENVIRONMENT
Conference • Workshop • Product Showcase • Forum • Building Tour

As part of the 2nd Singapore Universal Design Week 2015 programme, the Universal Design (UD) Conference and Workshop will promote the importance of designing for inclusiveness in our buildings, public spaces and infrastructure so that all, especially the seniors, can enjoy living, working, learning and playing in an user-friendly environment. This event is designed for all – building professionals, planners, policymakers and those who are passionate or curious about universal design. A Product Showcase will be held concurrently.
