BCA Certified Green Mark Professional (GMP) Programme – 2012

The Certified Green Mark Professional programme is a training and recognition scheme introduced by BCA to raise industry capability in the niche area of Sustainable Design and Development.

The GMP course is offered as a series of short modules focused on design concept, practical green solutions and technologies, and the use of building simulation tools to predict building performance. To pass the course, participants need to complete 6 core modules and 3 elective modules. The next intake of GMP programme is scheduled to commence in July 2012.

Date: 6 Jul ~ 4 Dec 2012

Registration Closing Date: 22 Jun 2012
1-Day Workshop on

Programme Risk Management
- Technical Use of Programmes to Control, Manage and Optimise the Project

This workshop will concentrate on good programme management and optimisation strategies and techniques for effectively managing and mitigating the risk and challenges in managing a project towards successful completion. It will also cover tools for avoiding and analysing issues in disputes, and for resolving disputes quickly with minimum cost.

A case study will be used to help participants gain a better understanding of the potential problems and risks arising due to project delays.

**Accreditation**

PEB: 6 PDUs  
BOA-SIA: Pending

**Date:** 28 Jun 2012

1-Day Course on **Good Industry Practices**

- Waterproofing for Internal Wet Areas
- Painting
- Aluminium Window

To meet the rising expectation of the homeowners, the Quality Mark (QM) Scheme was launched in July 2002 to propel the industry workmanship standards to a greater height.

These “Good Industry Practices” courses aim to share with the industry the good practices in respective areas.

**Accreditation**

PEB: 7 PDUs each course  
BOA-SIA: 4 CPD Points each course

**To register for:**

- Waterproofing for Internal Wet Areas (3 Jul); [click here!](#)
- Painting (10 Jul); [click here!](#)
- Aluminium Window (24 Jul); [click here!](#)
2-Day Course on **Behavioural Safety for the Construction Industry**

Behavioural Safety is a methodology used to improve safety culture through change of behaviour of working personnel in an organisation. This methodology has been applied successfully in other industries like petrochemical and manufacturing and is gaining popularity in the construction industry.

**Accreditation**

- PEB: Pending
- MOM-CPD (for WSH officers): **14 SDUs**
- IES-ACES (for REs & RTOs): Pending

**Date**: 19 & 20 Jul 2012
