2- Day Workshop on Delivering Winning Presentations for Building Professionals

Across the world, a few million presentations are made every day. Many of them end up with their audience unimpressed or indifferent. Building professionals are often required to present their ideas, proposals, budget, consultancy, progress-reviews, either to their own management or to external stakeholders. The ability to present and convince your target audience is important to succeed in business and your career. This 2-day workshop offers you the ‘Mind-set, Skill-set and Tool-set’ to become a good presenter.

**Date:** 15 & 16 September 2011

4-Day Certification Course in **BIM Management**

Building Information Modelling (BIM) is a new three-dimensional modelling technology that allows the building professionals of various disciplines to explore the building project digitally, before it is built. BIM can help to bring about greater integration and collaboration among the developers, designers, builders and fabricators across the construction value chain.

BCA will mandate electronic submissions in BIM format for architectural, structural and M&E plans for building works for regulatory approval by 2015, starting with architectural e-submissions in 2013.

This course is designed for CAD/BIM managers, project managers and other technical and management professionals who are keen to obtain the relevant knowledge and skills that are required to set up a Company BIM Deployment Plan and BIM Project Execution Plan.

**Date:** 17 – 20 October 2011
