BCA Certified Green Mark Professional (GMP) Programme – 2012

The Certified Green Mark Professional programme is a training and recognition scheme introduced by BCA to raise industry capability in the niche area of Sustainable Design and Development.

The GMP course is offered as a series of short modules focused on design concept, practical green solutions and technologies, and the use of building simulation tools to predict building performance. To pass the course, participants need to complete 6 core modules and 3 elective modules. The next intake of GMP programme is scheduled to commence in July 2012.

Date: 6 Jul ~ 4 Dec 2012

Registration Closing Date: 22 Jun 2012
4-Day bizSAFE Level 4 Course on **Workplace Safety and Health Management System**

As part of WSH Council (WSHC)'s 5-level bizSAFE to assist Small and Medium Enterprises (SMEs) build up their WSH capabilities, this Level 4 course is meant for individuals who are appointed as WSH Management System Programme Lead and responsible for implementing WSH Management System in accordance with the SS 506 requirements.

**Accreditation**
- PEB: Pending
- MOM-CPD (for WSH officers): 28 SDUs
- IES-ACES (for REs & RTOs): 12 STUs

**Date:** 9, 11, 16 & 17 Jul 2012

4-day Certification Course for Universal Design (UD) Assessors

This 4-day course aims to provide an overview of the various aspects of adopting an inclusive approach to design. The course will adopt a multidisciplinary approach to gain an appreciation of UD through the direct contact with varied user groups in a focused context; the pragmatics of UD supported by an understanding of the theoretical framework; and the ability to source for and apply qualitative & quantitative information regarding the fit between human and the built environment.

This certification course will meet the forthcoming new requirement for mandatory training under the framework of Public Sector Panels of Consultants (PSPC) for Architectural Consultants and Project Managers.

Date: 16-17 Jul & 13-14 Aug

- A new training requirement
- SDF-PMET course fee support – pending for approval
1-day Course on **Retrofitting & Strengthening of Building Structures**

Buildings in Singapore are constantly upgraded and retrofitted with new features to reflect changes in needs of the buildings and requirements of their clients. Such addition & alteration (A & A) works may involve the restoration, addition/alteration & strengthening of building components, and reconstruction works. This course aims to provide our building professionals with the necessary knowledge to plan and execute addition & alternation works in buildings as well as bridge structures.

**Accreditation**

PEB: Pending
MOM-CPD (for WSH officers): 7 SDUs
IES-ACES (for REs & RTOs): 6 STUs

2-day Workshop on **Design of Concrete Structures - Eurocodes versus British Standards**

To prepare local structural engineering practitioners for the adoption of the Eurocodes in the design of reinforced concrete building structures, this 2-day workshop will approach the design of concrete building structures using Eurocodes in a comparison with BS 8110, which has been a familiar code of practice in Singapore. The workshop will contain lectures as well as hands-on tutorial sessions to provide participants with practical design experience.

This workshop is jointly organised by BCA Academy and Protective Technology Research Centre of Nanyang Technological University.

**Accreditation**
- PEB: Pending
- IES-ACES (for REs & RTOs): Pending

**Date:** 1 & 2 Aug 2012

1-day Seminar on Green and Gracious Construction Practices Seminar 2012

The Green and Gracious Builder Scheme aims to raise the environmental consciousness and professionalism of builders. It is also a benchmark of a builder’s corporate social responsibility to the environment and public. Together with the BCA Green Mark Scheme, this scheme forms part of the holistic framework to shape a sustainable built environment for Singapore.

The Green and Gracious Construction Practices seminar provides a platform for government agencies and Green and Gracious Builder Award winners to share their best practices. This would assist builders to address environmental concerns and mitigate inconveniences to the public caused by construction works.
