BCAA-IFMA FM CONFERENCE 2014: Solutions for Success in Planning, Commissioning and Operating Facilities for Future-Ready Built Environment

Jointly organised by BCA Academy and the Singapore Chapter of International Facility Management Association, this annual conference is poised to deliver best practices and trends as identified by Facility Management thought leaders.

This conference aims to provide an opportunity for participants to:

• Keep abreast of the latest industry trends and changes;
• Learn from international and local experts their hands-on knowledge concerning the latest trends, applications and solutions in the FM sector;
• Expand business network

Day 1: 28 May 2014, 1.00pm – 6.15pm
  • GREEN FACILITY SITE TOUR (Limited seats available)

Day 2: 29 May 2014, 9.00am – 5.30pm
  • SEMINAR

Day 3: 30 May 2014, 9.00am – 6.00pm
  • WORKSHOP

Special Package Fee & Discount is available for:
• Group of 3 registrations from same organisation
• BCA Young Leaders / BCAA Alumni card holders / IFMA members

CPD Points
PEB : 6 PDUs (for Seminar) / 7 PDUs (for Workshop)
BOA-SIA : 4 CPD Points (for participants attending full conference)
SPM: 2 CPD Points (for Site Tour) / 4 CPD Points (for Seminar) / 4 CPD Points (for workshop)

Date: 28, 29 & 30 May 2014
To register, CLICK HERE!
1- Day Workshop on **Contract Drafting – The Technicalities and Legalities**

Contract drafting is both an art and science. Merely referring to templates or specimens without having the technical skills and legal knowledge to address the specific needs of a particular project could result in disastrous consequences.

This workshop endeavours to provide a proper training platform for construction professionals and practitioners in the field of contract drafting by imparting the necessary technical skills and requisite legal knowledge.

At the end of the workshop, the participants would be able to identify common loopholes and pitfalls in contract drafting, address critical clauses in the conditions of contract and draft contractual letters, documents and submittals.

**CPD Points**
PEB: 7 PDUs

**Date:** 17 Jun 2014

---

2-day Course on **Fundamentals of Air-Conditioning System**

The bulk of the electricity consumption in a typical commercial building comes from the air-conditioning, it is essential for the practising engineers and designers to understand the concepts and functional knowledge of the air-conditioning system in order to explore ways to improve the energy efficiency of the system.

This course, jointly organised with ASHRAE Singapore Chapter, aims to develop an understanding of the principles of air-conditioning, with focus on air movement and components of an air distribution system. An overview of the relevant regulations and guidelines would be covered.

**CPD Points**
PEB: 14 PDUs

**Dates:** 23 & 24 Jun 2014

Evening Workshop on Site Management of Precast Concrete Construction

Good site management practices and planning of precast concrete construction activities would contribute to more efficient, less labour intensive and faster construction. This would eventually lead to better construction productivity.

This interactive workshop provides construction managers with practical knowledge in the planning, execution and control of precast concrete construction. At the end of the programme, participants will be able to plan and manage precast concrete construction site activities effectively.

CPD Points
PEB: 9 PDUs
WSH-CPD (for WSH officers): Pending
IES & ACES (for REs/RTOs): 9 STUs
SPM: 4 CPD Points

Date: 23, 26 & 30 Jun 2014
To register, CLICK HERE!

1-day Course on CORENET e-Submission System Training

CORENET e-Submission System (eSS) is a G2B (Government to Business) Internet-based system that allows industry professionals to submit their projects related documents electronically to regulatory authorities for approval without the constraints of time, nor physical distance. It is a one-stop, non-stop convenient point of access for round-the-clock submission via the internet, converges all regulatory application requirements, from development & building plans compliance, to building maintenance and certification of statutory completion.

Objective of the course is to equip users with the skills and knowledge to navigate and use eSS, especially in submitting their applications online. To date eSS is capable of allowing the public to submit electronic plans and documents from their homes and offices to more than 10 different government agencies.

CPD Points
PEB: 6 PDUs
BOA-SIA: 4 CPD Points

Date: 25 Jun 2014

**SPECIALIST DIPLOMA**

Our Specialist Diplomas are designed to provide diploma graduates with the opportunities to upgrade their knowledge to meet the ever-changing demands of the building and construction industry. Suitable for professionals and industry practitioners, the course curriculum is geared towards high-level specialised knowledge and skill sets needed in today’s increasingly complex built environment.

With their industry-oriented curriculums, these programmes will engage you in real-world training that enhances your work experience and knowledge, while enabling you to gain in-depth insight and skills in your area of specialisation. With the exception of the Specialist Diploma in Building Information Modelling which is a 5 month part-time programme, the other specialist diplomas are offered as 9-month part-time programmes.
