ANNOUNCEMENT

Course Fee Revision

Course fees will be revised with effect from 12 May 2016. To enjoy the current course fees, completed registration form with payment must be received by BCA Academy no later than:

- 5:00pm on 9 May 2016 for cheque payment
- 5:00pm on 10 May 2016 for cash payment made in person at BCA Academy

Course registration will be suspended on 11 May 2016 and resumed at 12:00pm on 12 May 2016.

Eligible applicant can tap on SkillsFuture initiatives for BCA Academy courses (T&C apply)

- SkillsFuture Study Award – up to $5,000 for out-of-pocket expenses
- SkillsFuture Credit - $500
- Mid-Career Enhanced Subsidy – up to 90% of course fee

These initiatives are only applicable to individual applicants. Eligible applicant needs to register for the course and apply for the relevant SkillsFuture Initiative accordingly. Visit www.bcaa.edu.sg – “QUICK LINKS” - “SkillsFuture Programmes” for more details.
4-evening Course on
**Supervision of Piling Works for Engineers and Supervisory Personnel**

Various challenges are present in pile foundation works due to the uncertainties and variability of the ground conditions. Once the piles are installed, they are expected to function throughout their lives. During the lifetime of the building, the foundation is rarely inspected for its continued structural integrity and stability. Supervision of piling works for building foundation is therefore essential and critical in ensuring the quality of construction works and safety of building structures.

This short course imparts to participants the essential knowledge of good construction practices, supervision of piling works, regulatory requirements and testing of pile foundation works.

**CPD Points**
- PEB: 12 PDUs
- IES-ACES (*for REs/RTOs*): Pending (Structural)

**25th Run Date:** 10, 12, 17 & 19 May 2016
**Venue:** BCA Academy

Certification Course for

Green Mark Facilities Professional (GMFP)

The Green Mark scheme, which serves as a benchmark for evaluating environmental sustainability in buildings, has since become a leading green building rating system in the tropics and sub-tropics.

Over the years, the Singapore Green Building Masterplan has also evolved from focusing on new buildings in the 1st masterplan to existing buildings in the 2nd masterplan, and tenants and occupants in the 3rd masterplan.

To equip the industry professionals to adopt and embrace the Green Mark scheme in the design, development, management and maintenance of green buildings, certification courses on Green Mark are offered to building designers, project managers and facilities managers.

GMFP Batch 3: Starting from 9 Jun 2016
Application Closing Date: 31 May 2016

Venue: BCA Academy

To register, CLICK HERE!

Eligible for e2i funding / SkillsFuture Study Award (T&C apply)
1-day Course on
Requirements for Environmental Sustainability in Buildings And The Green Mark Scheme

This course aims to:

- provide crucial information and knowledge on the new legislative requirements on Environmental Sustainability for Buildings;
- provide an understanding on the interpretation of the Green Mark Criteria and Scores for new building developments – Residential & Non-residential Buildings;
- provide a better understanding on the submission procedures and walk through of the Green Mark (GM) e-filing system.

2-day Workshop on
Managing Project Teams Effectively

This workshop aims to equip participants with practical solutions to effectively manage people by considering (1) what makes people difficult, (2) how we could communicate effectively and manage people’s expectations, and (3) strategies for dealing with difficult people and situations.

Through interactive activities, role play and case studies, participants will learn how to apply the provided tools coupled with their interpersonal skills to deal with all types of work behaviour problems.

2-Day Course on

Energy Efficiency for Electrical Systems

This course addresses a wide range of topics in electrical systems found in buildings and ways to operate them in an efficient manner to reduce energy consumption. The participants will learn about efficient power distribution arrangements, addressing the power quality issues, building load management techniques, uninterruptible power system and renewable energy generation system.

6-evening Course on Internal Audit (QEHS) Course based on QUALITY ISO 9001, ENVIRONMENTAL 14001 & HEALTH & SAFETY OHSAS 18001

The Internal Audit (QEHS) course (based on requirements on Quality Management System, Environmental Management System and Occupational Health and Safety Management System) aims to equip Internal Auditors with the knowledge and skill required to assess, monitor and measure the performance of an organisation’s integrated QEHS Management system.

As the ISO 9001 and ISO 14001 have recently undergone a major review, the course includes the latest updates of the new editions and highlights the necessary revisions to ensure smooth transition from the current version.

Universal Design Conference 2016

UNIVERSAL DESIGN IN PUBLIC PLACES

Date: 27 July 2016
Time: 9.00am to 5.00pm
Venue: Grand Copthorne Waterfront Hotel Singapore

Organised by the Building and Construction Authority (BCA) of Singapore, the 3rd Singapore Universal Design Week (SUDW) will be held from 27 to 29 July 2016.

As part of the SUDW 2016 programme, a 1-day conference themed “Universal Design in Public Places” will be held on the 27 July 2016. The conference aims to promote the adoption of Universal Design (UD) concepts to create inclusive and user-friendly public places, with designs that take into consideration the needs and abilities of everyone, including the elderly, expectant mothers, parents with young children, families, and persons with disabilities.

This event is designed for all – building professionals, planners, policymakers and those who are passionate or curious about Universal Design. Renowned speakers and subject experts will be sharing the importance of addressing such needs at the conference.

DR GERALD CRADDOCK
Chief Officer
Centre for Excellence in Universal Design
National Disability Authority, Ireland
Past President, Association for the Advancement of Assistive Technology, Europe

The Centre and its highly experienced team is focused on enabling the design of environments that can be accessed, understood and used regardless of age, size and ability. Key domain areas covered by the Centre are the built environment, products and services, and information and communication technologies (ICT).
