BCAA – IFMA Facility Management Conference 2013

Improving Productivity and Sustainability in Facilities Management

The BCAA-IFMA FM Conference 2013 is the fourth year jointly organised by BCA Academy and the Singapore Chapter of International Facility Management Association.

The theme for this year is poised to deliver new research, best practices and trends as identified by Facility Management thought leaders from local/international organisations.

CPD Points
PEB: Pending
BOA-SIA: 4 CPD Points (for Seminar on 8 May 2013 only)
SPM: 1 CPD Points (Site Tour) / 2 CPD Points (Seminar)

Date: 7 & 8 May 2013

4-Evening Certification Course for Site Investigation Supervisors

The Singapore Accreditation Council (SAC) of SPRING Singapore, with the support of Geotechnical Society of Singapore (GeoSS), Building and Construction Authority (BCA) and Land Transport Authority (LTA) is introducing an accreditation scheme for site investigation firms.

As part of the accreditation requirements for site investigation firms, site investigation supervisors of the firms are required to undergo a training course on site investigation. Upon successfully completing the course, they can be registered as “Certified Site Investigation Supervisor” with GeoSS.

1-Day Workshop on
Programme Risk Management -
Technical Use of Programmes to Control,
Manage and Optimise the Project

This workshop will concentrate on *good programme management* and *optimisation strategies and techniques for effectively managing and mitigating the risk and challenges in managing a project* towards successful completion. It will also cover tools for avoiding and analysing issues in disputes, and for resolving disputes quickly with minimum cost.

A case study will be used to help participants gain a better *understanding of the potential problems and risks arising due to project delays*.

1-Day Course on
Design of Bolted and Welded Joints in Steel Buildings using Eurocode 3

Connections form a very important part of any steel structure and integrity of the structure depends on them. Accurate details and specifications are required for fabrication to ensure trouble-free erection. The workshop will focus on connection design specifications as per the new Eurocode 3: Part 1-8: Design of joints. Results of recent research on steel connections detailing and fabrication will also be introduced. The course will be taught with practical examples of connection designs which are reliable as well as economical.

2-Day Course on **Design of Steel-Concrete Composite Buildings using Eurocode 4**

Eurocode 4 is the new standard for design of composite structures. It covers many forms of composite structural design and provides the most comprehensive and up to date set of design guidance currently available. This course aims to provide civil and structural engineers an introduction to the Eurocode provisions for the design of steel-concrete composite building structures.

1-day Workshop on **Preparing and Defending Loss and Expense Claims**

Many on-going projects run the risk of going into disputes, claims, delay and disruption. “Loss and Expense” claim is one of the cost claims that are likely to be encountered by contracting parties of a construction project.

At the end of the workshop, participants would:

- be equipped with the necessary knowledge to manage Loss and Expense claims;
- be able to recognize the “do’s and don’ts” in the claiming process;
- acquire knowledge of legal and technical aspects of claims from experts
