2-Day Course on Design of Steel Buildings using Eurocode 3

As part of initiatives to prepare industry professionals to adopt Eurocode Standards, this course aims to provide civil and structural engineers a good understanding of the general rules, main features and changes contained in Eurocode 3 and the accompanying Singapore National Annexes. The course will cover the basis of structural component and frame design, structural loading, material properties, design at the ultimate limit state and the serviceability limit state. Practical examples with direct reference to Eurocode clauses will be used to illustrate the application of the code requirements.

Lecture Series on Build Smart Strategies
Creating Buildable Architecture
This lecture series, jointly organised by the BCA Academy and Singapore Institute of Architects (SIA), aims to address the challenges of achieving creative architectural designs which remain buildable. It presents an excellent opportunity for the building industry to gain insights on the application of discerning design strategies, the adoption of modular design, the use of prefabricated components and systems; and the use of precast in buildings.

In this 1st lecture of the series, ARC Studio and AgFacadesign will be sharing insights into Pinnacle@Duxton, 158 Cecil Street, and National Museum.

**Accreditation**
**BOA-SIA:** 5 CPD Points

**Date:** 31 Jul 2012
