1-Day buildingSMART BIM International Conference
2011 – The BIM-Finitive Way for Smart Construction

At this conference, participants will hear and learn from overseas and local practitioners on how BIM can help improve productivity significantly as well as learn about the challenges and issues involved in the adoption of BIM. You will learn more about the business case in using BIM and the positive ROI from the various speakers.

Date: 21 September 2011

1-Day Seminar on **Good Practices of Pile Load Testing and Use of Pile Load Test Results to Improve Pile Design**

This seminar, jointly organised by Geotechnical Society of Singapore (GeoSS) and BCA Academy, will present good practices of pile load testing that will ensure safety of piling works. In this seminar, piling specialists, pile-testing experts and regulators such as BCA, LTA and MOM will share their expertise in various aspects of piling and pile load test practices.

**Date:** 27 September 2011

**Half-Day Course on Building Control Regulations for Site Supervisors**

This course is jointly organised by BCA Academy and the Joint Accreditation Committee (JAC) of Institution of Engineers Singapore (IES) and Association of Consulting Engineers Singapore (ACES) which accredits Qualified Site Supervisors such as Resident Engineers (RE) and Resident Technical Officers (RTO). This course is aimed at educating newly accredited site supervisors on Singapore’s legal framework for building construction and building control regulation requirements.

**Date:** 30 September 2011

4-Day Certification Course in **BIM Management**

Building Information Modelling (BIM) is a new three-dimensional modelling technology that allows the building professionals of various disciplines to explore the building project digitally, before it is built. BIM can help to bring about greater integration and collaboration among the developers, designers, builders and fabricators across the construction value chain.

BCA will mandate electronic submissions in BIM format for architectural, structural and M&E plans for building works for regulatory approval by 2015, starting with architectural e-submissions in 2013.

This course is designed for CAD/BIM managers, project managers and other technical and management professionals who are keen to obtain the relevant knowledge and skills that are required to set up a Company BIM Deployment Plan and BIM Project Execution Plan.

**Date:** 17 – 20 Oct 2011

- Preparing for mandatory e-Submission
- Course Fee Subsidy is Available
Bachelor of Building and Project Management

This programme is a partnership programme between SIM University and BCA Academy (BCAA). The programme equips students with a repertoire of specialist knowledge and skills for the productive management of projects. Students will be trained in a broad spectrum of competencies including interdisciplinary studies in building design and technology, construction management, international project management, cost management, contract administration, safety management and sustainability.

This programme provides an honours option, and is designed to meet the academic requirements for professional recognition. The programme is also intentionally positioned to be applied and practically relevant.

Date: Starting in Jan 2012
To register, click here!

- Application close: 30 September 2011
- Course Fee Subsidy is available
12-Evening Certificate in Construction Productivity Management

This specially tailored training course aims to equip project managers and construction managers with the practical knowledge to enhance productivity on their construction projects.

The programme is a collaboration between BCA Academy and Singapore Contractor Association Ltd (SCAL). It caters to the specific needs of the contractors and builders in managing construction productivity.

**Date:** 25 Oct - 2 Dec 2011
