The seminar will provide updates on the Singapore Standards: SS 626 (a revision of CP 15) and SS 550 Amendment 2.

**SS 626** covers the safety requirements for escalators and moving walks to safeguard people and objects against risks of accidents during installation, operation, maintenance and inspection work. It aligns with the current European Standard EN 115:2008 & A1:2010.

**SS 550 Amendment 2** aligns the operations for emergencies, evacuations and fire lifts to provide consistency and harmonise with the Fire Code.

**Programme**
