How is this series relevant to Engineers and Architects?

The following updated points are noted:

1. The sectorial plan “Implementing WSH2018 for the Construction Sector in Singapore” target full adoption of DfS mark by public developers by 2013, and adoption of the mark by private developers thereafter. [https://www.wshc.sg/wsh2018]

2. To assist clients to engage a DfS Coordinator as part of procurement, guidance on specific terms of reference was developed by Workplace Safety and Health Council (WSHC) with Ministry of Manpower (MOM with support from various associations, including Real Estate Developers’ Association of Singapore (REDAS), Singapore Institute of Architects (SIA), The Institution of Engineers Singapore (IES), Association of Consulting Engineers Singapore (ACES), The Singapore Contractors Association Limited (SCAL) and Singapore Institute of Surveyors and Valuers (SISV).

3. Certification

For applicants who fulfill all criteria except for sufficient experience, they may attend the class. Upon passing the Assessment 1 (MCQ), they may receive a “Certificate of Attendance”. When they have reached the required 10 years of experience, they may take the Assessment 2 (project) and obtain the “Certificate of Completion” upon passing. They will be deemed certified DfSC and listed online subsequently. No certificate will be issued to those who do not pass the assessments.

Synopsis of the course

Learners of this course will gain the knowledge and skills for fulfilling the role of the Design for Safety (DfS) Coordinator in accordance with the Guidelines on Design for Safety in Buildings and Structure.

Objectives

Upon completion of this course, learners will have the skills and knowledge to function as a DfS Coordinator with the purpose to:

- Assist the client to address and identify means to eliminate or mitigate the risks inherent in the design of a construction project so as to reduce the safety and health risks during the construction, maintenance/repair phase, and demolition of the building and structure and;
- Coordinate the flow of construction project safety and health risks information among the stakeholders from the design stage, to construction stage until the handover to the client for occupation and maintenance.

Learning outcomes

The skills and knowledge learnt during this course are likely to be applied in the following activities:

- Facilitate design review process that involves the relevant stakeholders to identify and address safety and health risks associated with construction project.
- Maintain records of safety and health issues arising from the design review process and actions taken.
- Coordinate the flow of relevant safety and health information among all stakeholders of a construction project at appropriate time.

Certification

Participants will be issued with a Certificate of Attendance upon passing the Assessment 1. Only candidate assessed competence in Assessment 1 will be invited to submit the project report for Assessment 2. Certificate of Competency will be issued only if participants are assessed to be competent in Assessment 2.

Entry Requirements

Learners are required to possess the following working experience and qualifications:

- A Recognised University degree or other qualifications recognised by PEB and/or BOA for professional registration as an Engineer and/or Architect.
- Have a total of 10 years of both design and construction experience in any combination and have relevant construction related qualifications accepted by recognised construction-related institutions;
- Have safety and health experience, being reasonable experience comprising:
  - The appointment as site supervisor staff (such as RE/RTO) with exposure to workplace safety and health management on Site, and/or
  - Working for an Architect/Engineer consultancy firm in which the applicant must have actively participated in supervision and/or administering the building contract on site with exposure to safety and health management, and/or
  - Working for a construction firm in which the applicant must have actively participated in workplace safety and health management.
- Possess the following skills and knowledge:
  - Building design and construction operations
  - Building and construction processes
  - Legal and statutory requirements associated with building and construction
  - Basic safety and health issues associated with construction operations
  - Written and oral communication, presentation, facilitation and problem solving skills

*Due to stringent requirements in enrollment, applicants are required to submit their application and relevant supporting documents earlier for our assessment.*
Mr. Darren Benger

Darren received his Bachelor of Architecture degree with First Class Honours from the University Of Adelaide, Australia in 1995, and registered with the Board of Architects, Singapore in 2001. Since 1996 Darren has resided in Singapore, and he is currently a Director of ATA Architects Pte Ltd.

Darren’s involvement in the Singapore Institute of Architects includes election to Council for the 2007/2008, 2008/2009 and 2009/2010 terms, and he has actively participated in various SIA committees, including chairing the SIA WSH Committee from 2010 after being Deputy Chairperson in the inaugural 2009 committee.

Darren has contributed to the BOA/SIA Architectural Practice Course as a speaker/tutor since 2008, and in the building contracts module of the Architectural Practice course for the National University of Singapore - School of Architecture since 2009.

Darren attained accreditation from WSH Council as a Trainer for the DfS Coordinator Course after participating in the inaugural ‘train-the-trainers’ course in 2009.

Er. Koh Boon Liang has over 30 years of experience in various aspects of civil and structural engineering design, coordination, tenders and construction of major buildings and infrastructure works in Singapore, Malaysia, Taipei, Cambodia, Myanmar and Indonesia.

Boon Liang is a Registered Professional Engineer in Singapore. Since 1992, he has set up partnership practices in Singapore and Malaysia and an associated office in India to provide consultancy services in the region. He is also the Joint Managing Director of Ronnie & Koh Consultants Pte Ltd.

Er Koh is currently the President of the Association of Consulting Engineers, Singapore and a member of the Professional Engineers Board. He sits in many government Committees and amongst others are the WSH Construction and Landscape Committee, DFS Committee, Construction Productivity Centre Advisory Committee and the Engineering Accreditation Committee.

Boon Liang attained accreditation from WSH Council as a trainer for the DfS Coordinator Course after participating in the inaugural ‘train-the-trainers’ course in 2009.
