| 9:30 | Keynote: Global megatrends  
The speaker will provide insights on how global megatrends such as technological change, growth of cities of the future and increasing connectedness of the global economy will affect Singapore's future economy in the next 10-20 years. |
| 10:10 | Presentation of Merit Awards |
| 10:30 | Refreshments |
| 11:00 | **Topic 1: Driving business innovation through technological change**  
Speakers will provide insights on how technological changes such as 3D printing, Internet of Things (IoT) and service and personal care robots are catalysing the creation of new business innovations in large and small firms. This session will also cover and explore how standards and conformance address quality, operational and supply chain efficiency, transparency, interoperability, safety and security aspects of new business innovations. There will be a panel discussion at the end of the session |
| 13:00 | Lunch |
| 14:20 | MOU signing with Myanmar Accreditation Body (to be confirmed) |
| 14:30 | **Topic 2: Addressing the opportunities & challenges of cities of the future**  
Speakers will provide insights on how standards and conformance can address the opportunities and challenges of cities of the futures in areas such as infrastructure, the environment and the social fabric of cities. Many major cities, including Singapore, are exploring "smart cities" initiatives where standards and conformance play an important role to ensure rapid, pervasive and effective adoption of innovative solutions. There will be a panel discussion at the end of the session. |
| 16:30 | Refreshments and networking |
