INVITING YOU TO:
INDIA ENERGY TECHNOLOGY & INVESTORS MEET
WITH THE
Honorable Minister of State with Independent Charge for Power, Coal, New and Renewable Energy of India
MINISTER MR. PIYUSH GOYAL

Date: Monday, 23rd May 2016
Guest of Honor: Minister Mr. Piyush Goyal
Time: 1530hrs – 1730hrs
(Registration @ 1500hrs - 1525hrs, all to be seated by 1525hrs)
Venue: Shangri-La Hotel Ballroom, 22 Orange Grove Rd S(258350)
Free Admission but Pre-Registration is required!

The Federation of Indian Chambers of Commerce and Industry (FICCI) in partnership with the High Commission of India, Singapore Manufacturing Federation (SMF) and the Institute of South Asian Studies (ISAS) cordially invite you and your colleagues to come and meet the Honorable Minister of State with Independent Charge for Power, Coal, New and Renewable Energy of India, Minister Piyush Goyal on May 23rd 2016, 1530 to 1730 hrs at the Shangri-La Hotel Ballroom.

Minister Piyush Goyal together with FICCI’s president Mr. Harshavardhan Neotia will be leading a high level business delegation to Singapore on the 23rd of May 2016. The Minister will be sharing insights on opportunities in India’s energy sector as well as facilitating foreign investments into India.

India, home to 18% of the world’s population, uses only 6% of the world’s primary energy. India’s energy consumption has almost doubled since 2000 and the potential for further rapid growth is enormous. India’s economy, already the world’s third-largest is growing rapidly and policies are in place to press ahead with the country’s modernization and achieving India’s development ambitions. If a well-managed expansion of energy supply can be achieved, the prize in terms of improved welfare and quality of life for India’s 1.3 billion people is huge – first and foremost for the estimated 240 million that remain today without access to electricity.

The power sector in India remains one of the most diversified in the world. Sources of power generation range from conventional sources such as coal, lignite, natural gas, oil, hydro and nuclear power to viable non-conventional sources such as wind, solar, and agricultural and domestic waste. Electricity demand in the country has increased rapidly and is expected to rise further in the years to come driven by economic growth and is estimated to grow from 1,127 terra watt hours (TWh) in 2013 to 3,793 TWh in 2032. The Government of India’s focus on attaining ‘Power For All’ has accelerated capacity addition in the country. At the same time, the competitive intensity is increasing at both the market and supply sides in terms of fuel, logistics, finances, and manpower. India’s ties with the international energy system are set to deepen, intensifying India’s dependence and influence on international markets, through trade, investment, clean technology cooperation and other channels.

We urge you to take this opportunity to attend this complimentary seminar, so that you can meet the Honorable Minister of State with Independent Charge for Power, Coal, New and Renewable Energy, Minister Piyush Goyal as well as representatives from the FICCI.

Established in 1927, FICCI is the largest and oldest apex business organisation in India. FICCI being a non-government, not-for-profit organisation, is the voice of India’s business and industry. From influencing policy to encouraging debate, engaging with policy makers and civil society, FICCI articulates the views and concerns of industry. It serves its members from the Indian private and public corporate sectors and multinational companies, drawing its strength from diverse regional chambers of commerce and industry across states, reaching out to over 2,50000 companies.
