Join the world-class acoustic consultants of Gardens by the Bay, Vipac Engineers & Scientists Pte Ltd

To assist you to understand the latest trends in the complex field of acoustic design and when you need to call in the specialists to help, Vipac is pleased to hold the Acoustic Design - Trends and Challenges Seminar as part of our 40th Anniversary Seminar Series.

Vipac has been providing acoustic consultancy services in Singapore for over 25 years and has been involved in many landmark Singaporean projects, including:

- Gardens by the Bay
- Changi Business Park
- Scotts Tower
- Changi Airport Terminal 2
- The island-wide Mass Rapid Transit (MRT) noise survey,
- The proposed Ng Teng Fong General Hospital.

Achieving optimal acoustic design is critical to building projects. This seminar will discuss how in specialist spaces, such as hospitals, hotels and conference centres, noise amenity is fundamental to the success of the property.

Keynote Speaker: Ivailo Dimitrov
Director and Principal Acoustics Engineer
Vipac Engineers & Scientists

Ivailo leads Vipac’s building and infrastructure team and has extensive engineering consultancy experience. He has been responsible for the acoustic design of many landmark building developments and major transport interchanges.
