Based on The Organisation for Economic Co-operation and Development (OECD)’s projections, GDP in Southeast Asia, China and India is estimated to grow by an annual average of 6.1% between 2019 and 2013.

With the vibrant job market and strong household spending across these markets, the rising domestic demand is expected to fuel the economic growth. To capture growth opportunities in the region, it is important for businesses to understand the market conditions and how geopolitical situations can influence your market entry strategies.

Join us to learn more about the ever-changing business climate in Asia such as the trade flows in Vietnam, Eastern Corridor in Thailand and how global trends like the Sino – US trade tensions are affecting trade.
