
18 - 21 July 2017, Suntec Singapore Convention & Exhibition Centre, Singapore.

Join us at this premier three-day summit to:

- Learn about the latest research findings, engineering innovations and best practices in support of a low carbon future and sustainable development
- Listen to more than 200 presentations by experts comprising renowned researchers, practitioners and policy makers from around the world
- Experience first-hand Singapore’s urban energy management programmes and policy options for a low carbon future
- Exchange ideas and experience with engineers, scientists, researchers, policy-makers, industry specialists and business leaders from around the world
- Access rich technical content distinctive of the Applied Energy Symposium and Forum series
WES-CUE 2017 is hosted by The Institution of Engineers, Singapore, in collaboration with the International Conference on Applied Energy (ICAE) and the Applied Energy Innovation Institute (AEII). Accepted and presented papers will be published in Energy Procedia. Selected papers presented at WES-CUE 2017 will be invited to be resubmitted for review for possible publication in a Special Issue of Applied Energy.

For enquiries, please contact IES Secretariat at +65 6461 1240 or email veron.poh@iesnet.org.sg
