BCA-REDAS-SGBC Green Building Seminar 2013

UNFOLD THE TRUE VALUES OF GREEN RETROFITS

The annual BCA-REDAS-SGBC Green Building Seminar aims to provide a platform for practitioners to gain insights of overseas and local advancement towards green building, its technologies and concepts, business cases and models, as well as exemplary projects. This year, the seminar focuses on retrofitted buildings and speakers from different discipline will share their knowledge and experience.

1-Day Workshop on **Contract Drafting – The Technicalities and Legalities**

Contract drafting is both an art and science. Merely referring to templates or specimens without having the technical skills and legal knowledge to address the specific needs of a particular project could result in disastrous consequences.

This workshop endeavours to provide a proper training platform for construction professionals and practitioners in the field of contract drafting by imparting the necessary technical skills and requisite legal knowledge.

At the end of the workshop, the participants would be able to identify common loopholes and pitfalls in contract drafting, address critical clauses in the conditions of contract and draft contractual letters, documents and submittals.

HFT Stuttgart - BCA Executive Development Programme 2013

Innovations in Sustainable Design & Technology

(5-Day Programme conducted in Germany)

As part of the Building and Construction Authority (BCA)'s initiatives to develop industry capabilities towards sustainable development, since 2009, BCA Academy, the education and research arm of BCA, has been collaborating with established institutions in USA and Germany to offer short-term immersion Executive Development Programmes overseas to equip the industry professionals and leaders with current trend and development of sustainable technologies and solutions.

This 5-day immersion programme in Germany is designed to provide a strategic platform for built environment professionals to be updated with latest sustainable innovation and technologies available overseas for possible adoption/adaption in their building projects.

2-Day BUILD SMART Conference 2013

Conference Day 1 – 31st Jul 2013

- Productive Technologies and Processes
- GOH: Deputy Prime Minister and Minister for Finance, Mr Tharman Shanmugaratnam

Conference Day 2 – 1st Aug 2013

- Innovate-Integrate-Transform with BIM
  - BIM for various type of projects

As part of the effort to drive productivity, the Building and Construction Authority (BCA) will be organising the Singapore Construction and Productivity Week (SCPW) 2013 from 29 July to 2 August 2013.

SCPW 2013 will feature three key events – (i) Skilled Builders competition and BIM competition, (ii) Build Smart Conference and (iii) BuildTechAsia 2013 (an exhibition on construction machinery, building materials, BIM and IT services).

Renowned speakers from Australia, Germany, Japan, Singapore, United Kingdom and USA will share best practices and showcase exemplary projects which have successfully adopted productive technologies.

3-day Course on Management of Water and Environmental Services for Estate Managers
(Partnership with PUB and SEI)

Property and facilities management is a growing industry in Singapore. With the increasing number of strata residential developments in Singapore and rising expectations from the home occupiers for proper maintenance of the estate, it is essential to equip the estate managers in effective management of their facilities and premises, in particular to the water supply, sanitary, drainage systems and environmental control.

The course aims to provide an overview of the relevant local authorities’ regulatory requirements and guidelines. It will highlight the good management and maintenance practices for water, drainage and sewerage services, wet facilities and waste collection system. Water Efficiency Measures will also be covered.
