WORLD CITIES SUMMIT 2018
Liveable & Sustainable Cities: Embracing the Future through Innovation and Collaboration

8-12 July 2018
www.worldcitiessummit.com.sg
Sands Expo & Convention Centre
Marina Bay Sands, Singapore
The World Cities Summit (WCS) is an exclusive platform for government leaders and industry experts to address liveable and sustainable city challenges, share integrated urban solutions and forge new partnerships. Over the past decade, the Summit has achieved global recognition with a credible gathering of the best minds in planning and urban development.

Themed “Liveable & Sustainable Cities: Embracing the Future through Innovation and Collaboration”, the 6th World Cities Summit will explore how cities can be more liveable and resilient through better governance, planning, technology and social innovations, as well as collaborations with various stakeholders and other cities. Through shared vision and active engagement, the public, private and people sectors can co-create innovative and integrated urban solutions for a more sustainable future.

Participate in this biennial event to benefit from the insights shared by thought-leaders and network with government leaders and industry experts from around the world. Register your interest to attend at www.worldcitiessummit.com.sg/registration-details

**KEY HIGHLIGHTS OF THE WORLD CITIES SUMMIT**

- World Cities Summit Mayors Forum
- World Cities Summit Young Leaders Symposium
- In-Conversation and Opening Plenary
- Lee Kuan Yew World City Prize
- World Cities Summit Thematic Tracks
- World Cities Summit Plenary
- World Cities Summit Thematic Forums
- Singapore Government Pavilion

**WHO SHOULD ATTEND**

**THE PUBLIC SECTOR**
- Ministers and Political Leaders
- Governors and Mayors
- Senior Officers from City, Provincial, Central and National Governments

**THE PRIVATE SECTOR**
- Architects, Master Developers and Urban Planners
- Data Analysts, Information Systems and Technology Professionals
- Engineering and Construction Professionals
- Environment Management and Control Solution Providers
- Equipment Manufacturers
- Financial Services: Investment Bankers and Infrastructure Financiers
- Professional Services: Legal, Audit, Accounting, and Management Consultants
- Property Developers and Consultants
- Safety and Security Solution Providers
- Technology Solution Providers and Systems Integrators
- Transportation Solution Providers

**THE PEOPLE SECTOR**
- Academics and Researchers
- Associations and Societies
- International Organisations & Non-Governmental Organisations
URBAN SUSTAINABILITY WEEK

Date: Monday, 9 July 2018

Coming under Urban Sustainability Week, the joint opening of the World Cities Summit, Singapore International Water Week, CleanEnviro Summit Singapore, and Singapore International Transport Congress and Exhibition will gather world leaders across city, water, environment and transport sectors to set the tone and direction of the week’s discussions.

OPENING CEREMONY

Time: 9.00am – 9.15am

The Opening Ceremony will be graced by the Deputy Prime Minister, Singapore, His Excellency Tharman Shanmugaratnam. Join us for a morning of thought-provoking discussions, debates, and network with over 3,000 government and industry leaders, urban solution experts and practitioners in attendance.

Guest-of-Honour:
His Excellency Tharman Shanmugaratnam
Deputy Prime Minister, Coordinating Minister for Economics and Social Policies, Singapore

IN-CONVERSATION

Time: 9.15am – 10.15am

The curtain-raiser for the week, In-Conversation is an engaging dialogue with distinguished world leaders who are active in shaping the global landscape for cities, water, environment and climate change. Together with the Opening Plenary, In-Conversation marks the opening of the three global events – World Cities Summit, Singapore International Water Week and CleanEnviro Summit Singapore.

Moderator:
Prof. Tommy Koh
Ambassador-at-Large, Ministry of Foreign Affairs, Singapore

His Excellency Ranil Wickremesinghe
Prime Minister, Sri Lanka

OPENING PLENARY

Time: 10.15am – 11.30am

Cities have become the world’s dominant demographic and economic clusters, and we are seeing the rise of “megacities”. Increased urbanisation, the rising demand for resources and climate change will inhibit many cities’ potential to be engines of progress and prosperity. How should urban, water, environment and transport management evolve to keep pace with urbanisation? At this Opening Plenary session, high-level speakers from governments, international organisations and industry sectors will share insights on cross-disciplinary policies, management strategies and solutions.

Moderator:
Prof. Chan Heng Chee
Ambassador-at-Large, Ministry of Foreign Affairs, Singapore

Steven J. Demetriou
Chairman and Chief Executive Officer, Jacobs

Bernard Charlès
Vice-Chairman and Chief Executive Officer, Dassault Systèmes

Luhut Pandjaitan
Coordinating Minister, Coordinating Ministry for Maritime Affairs, Indonesia

Kristalina Georgieva
Chief Executive Officer, The World Bank Group

All speakers and information accurate as of time of 30 April 2018
The WCS Mayors Forum is an exclusive, by-invitation-only global platform for mayors and city leaders to discuss pressing urban challenges and share best practices. These sessions will see case study presentations by mayors, and sharings by senior-level representatives from international organisations and industry players. There will also be interjections by representatives from the ASEAN Smart Cities Network, the WCS Young Leaders Symposium and the Singapore Sustainability Symposium.

**Date:** Sunday, 8 July 2018  
**Time:** 11.30am to 5.00pm

**Chairperson:** Lawrence Wong, Minister, Ministry of National Development, Singapore  
**Moderator:** Prof. Greg Clark, CBE FAcSS  
**Keynote Address:** Shri Nara Chandrababu Naidu, Chief Minister, Andhra Pradesh

**Session 1: What Should Mayors Do to Embrace and Capitalise on Disruptive Innovations?**

This session will discuss key governance instruments that mayors can use to transform disruptive innovations into opportunities that will help advance the development of cities. It will explore how cities can better prepare themselves to embrace innovation, adapt to new technologies, and successfully navigate disruptive business models to counter new challenges.

**Speakers:**  
Prof. Alexander Zehnder, Singapore Sustainability Symposium Sustainable Earth Office, NTU  
Lucy Turnbull, Chief Commissioner, Greater Sydney Commission  
Dr. Vallop Suwandee, Chairman of Advisers to Governor, Bangkok  
Sergei Sobyanin, Mayor, Moscow

**Session 2: No Investment, No Cities – What Should Mayors Do to Attract Financing for Infrastructure Projects?**

This session will look at how the increasing involvement of the private sector in infrastructure projects has resulted in less direct supervision or ownership by local governments. In the quest for funds through alternative models of financing and investment, are mayors losing control over how cities should be developed? Will governance be increasingly critical to ensure that the public interest and project longevity are not compromised at the expense of short-term commercial gains?

**Speakers:**  
Ahmed Aboutaleb, Mayor, Rotterdam  
H.E. H. Anies Rasyid Baswedan, Governor, Jakarta  
Louis Lim, Chief Operating Officer, Keppel Land; Managing Director, Keppel Technology and Innovation

**PARTICIPATING CITIES**

**CITY PORTRAITS**

In conjunction with the Forum, there will be a pop-up exhibition, City Portraits, that showcases the participating cities of the Forum, including some of their citywide initiatives and projects that have been successfully implemented.
This year’s Symposium will focus on innovation and disruption in the public, private and people sectors. Selected Young Leaders will do a short sharing of what innovation means to them, the associated challenges, and the solutions they have in mind. This will be followed by three rounds of group discussions to deep dive into the ideas presented from multi-disciplinary angles and shape these ideas into concrete plans and projects. The discussions and concluding thoughts from the Symposium will be shared at the WCS Mayors Forum.

Chairperson: Desmond Lee, Second Minister, Ministry of National Development, Singapore
Moderator: Pang Yee Ean, Director General, Investment Operations, Asian Infrastructure Investment Bank
Speakers: Lai Chang Wen, Co-Founder and Chief Executive Officer, Ninja Van Shaishav Dharia, Regional Chief Executive Officer, Lodha Group His Worship Justin Lester, Mayor, Wellington

The WCS Young Leaders is a select group of change-makers from diverse sectors who shape the global urban agenda at the annual WCS Young Leaders Symposium. This network allows passionate leaders to debate on issues and identify initiatives to tackle urbanisation challenges.

Temasek Foundation Connects

The Temasek Foundation is our partner. The Foundation seeks to build bridges and foster deeper understanding across communities, as well as strengthen professional and thought leadership networks for established and future leaders worldwide. It will also support more Young Leader-led initiatives to tackle urban issues in a multi-disciplinary manner.
LEE KUAN YEW WORLD CITY PRIZE

The Lee Kuan Yew World City Prize is named after Singapore’s first Prime Minister, Mr Lee was instrumental in developing Singapore into a distinctive, clean and green garden city in a short span of a few decades. Under his leadership, the adoption of strategic land use, transport and environmental policies and programmes have helped Singapore develop into a liveable city with a high quality living environment in tandem with rapid economic growth.

Inaugurated in 2010, the Prize is a biennial international award that honours outstanding achievements and contributions to the creation of liveable, vibrant and sustainable urban communities around the world. The Prize is awarded to cities and recognises their key leaders, organisations for displaying foresight, good governance and innovation in tackling urban challenges to bring about social, economic and environmental benefits holistically for their communities.

For more information about the Prize, please visit www.leekuanyewworldcityprize.com.sg

SEOUL
2018 LEE KUAN YEW WORLD CITY PRIZE LAUREATE

Seoul is recognised as the role model for megacities with a will to change. With a leadership that dares to make bold decisions and a government that devises innovative problem-solving methods, the city has successfully turned itself around from a bureaucratic top-down city with rising tensions between the government and its people, into the inclusive, socially stable, and highly innovative city found today. As shown in Seoul’s successful and impactful high quality projects to repurpose urban infrastructure, the city has proven itself as an excellent example where leadership, commitment to citizen engagement, data-supported problem-solving decisions, and creative designs can transform the built environment, add vibrancy and improve quality of life. Read more on Seoul’s transformation at www.leekuanyewworldcityprize.com.sg/seoul

LEE KUAN YEW WORLD CITY PRIZE LECTURE AND FORUM

Date: Monday, 9 July 2018 Time: 1.30pm – 5.00pm

The Prize Lecture is one of the key highlights at the World Cities Summit. Delivered by the 2018 Prize Laureate, Seoul, the Prize Lecture is a platform that celebrates the Laureate’s achievements in creating liveable, vibrant, and sustainable urban communities with a high quality of life.

Delegates can also expect to gain insights from the 2018 Special Mentions: Hamburg, Kazan, Surabaya and Tokyo at the Lee Kuan Yew World City Prize Forum. This is a dedicated platform for them to share their diverse urban development experiences as case studies for cities around the world. Each speaker will present their unique context, the challenges faced, and the urban solutions deployed.

Chairpersons: Dr. Cheong Koon Hean, Chief Executive Officer, Housing & Development Board, Singapore Prof. Marilyn Jordan Taylor, Professor of Architecture and Urban Design, University of Pennsylvania Wong Mun Summ, Co-Founder, WOHA
NETWORKING EVENTS

EXCLUSIVE NETWORKING NIGHT (SUNDAY, 8 JULY)
CÉ LA VI, Marina Bay Sands

Interactive discussions from earlier in the day during the by-invitation only WCS Mayors Forum and WCS Young Leaders Symposium will culminate at the WCS Exclusive Networking Night. Expect an intimate evening of conversations and networking opportunities with mayors, governors and industry leaders, as well as our distinguished WCS Patron and Platinum Sponsors. This event is only open to WCS Mayors Forum attendees, and WCS Patron and Platinum Sponsors.

LEE KUAN YEW PRIZE AWARD CEREMONY AND BANQUET (MONDAY, 9 JULY)
The Ritz-Carlton, Millennia

The Lee Kuan Yew Prize Award Ceremony and Banquet celebrates the winners of the Lee Kuan Yew World City Prize and Water Prize. President of Singapore Madam Halimah Yacob will be the Guest-of-Honour for the Ceremony and Banquet. A prestigious networking occasion, participants can extend corporate hospitality to business associates to join an evening of celebration. Network with your guests as well as mayors, city leaders and senior level industry players from all over the world at this sit-down dinner.

INDUSTRY NIGHT AT CITY SOLUTIONS SINGAPORE (TUESDAY, 10 JULY)
Sands Expo & Convention Centre, Marina Bay Sands – Various Locations

To celebrate the meeting of thought leaders across the urban, water, environment and transport sectors, as well as to encourage cross-sector partnerships and collaborations, we welcome all delegates to join us and unwind over wine and canapés on Tuesday evening. This Industry Night will be held at the City Solutions Singapore exhibition. Take the opportunity to view showcases at the City Solutions Singapore in a relaxed setting and mingle with sponsors and exhibitors. Look out for pop-up activities at some of the country pavilions and exhibition booths – do not miss out on announcements and experiences exclusive to this evening.
URBAN GOVERNANCE

Session 1: Can Good Governance Prepare Cities for Disruptive Innovations?

With an increasingly volatile and uncertain global environment, public sector leadership will need to adapt quickly to fast-changing circumstances. Exacerbated by an increasingly active and vocal citizenry, it is critical for governments to be pragmatic, lead with a clear vision, and collaborate with the private and people sectors to co-create solutions for a more liveable city. Is good governance alone sufficient to provide the right foundation for disruptive technologies?

Moderator: Dr. Tan Chin Nam, Senior Corporate Adviser; Former Permanent Secretary

Speakers: Marvin Rees, Mayor, Bristol
Gotzone Sagardui, Coordinating Councillor for the Mayor’s Office, Economic Development and Good Government, Bilbao
Dr. Jonathan Woetzel, Director and Senior Partner, McKinsey Global Institute
Gabe Klein, Special Venture Partner, Fontinalis Partners
Chew Men Leong, Chief Marketing Officer, Singapore Technologies Engineering

Session 2: Let’s Talk about Money – How Will Cities of the Future Be Financed?

Financial resources are the crucial ingredients to turning masterplans into reality. In recent years, the master developer approach and public-private partnership have provided cities with alternative financial resources to develop and rejuvenate themselves. New financial institutions are set to catalyse changes to modern urban investment strategies. How can mayors work better with investors, capital markets and stakeholders to tap into innovative resources and alternative models of urban financing and investment?

Moderator: Pang Yee Ean, Director General, Investment Operations, Asian Infrastructure Investment Bank

Speakers: Dr. Sreedhar Cherukuri, Commissioner, Capital Region Development Authority, Government of Andhra Pradesh
Datuk Ismail Ibrahim, Chief Executive Officer, Iskandar Regional Development Authority
Sean Tompkins, Chief Executive Officer, Royal Institution of Chartered Surveyors
Michael P.M. Spies, Senior Managing Director, Innovation, India and New Market, Chair of Investment Committee, Tishman Speyer
Simon Treacey, President, The Howard Hughes Corporation, Hawaii
Stewart Upson, Managing Partner, Infrastructure, Brookfield Asset Management, Asia Pacific

PLANNING

Session 1: They Say “Old is Gold” – But Is It Really? Urban Regeneration through Integrated Planning

Cities are complex entities consisting of multiple urban systems. The various systems need to be coordinated through an integrated urban plan to create liveable outcomes, and to sustain quality of life for citizens. Integrating social, economic and environmental considerations into planning efforts is required to rejuvenate distressed urban areas in a holistic manner. How can the use of innovative technology and systems help governments make more informed planning decisions?

Moderator: Prof. Marilyn Taylor, Professor of Architecture and Urban Design, University of Pennsylvania

Speakers: Dr. Gábor Bagdy, Deputy Mayor, Budapest
Prof. Jan Gehl, Founder, Gehl Architects
Nina Yang, Chief Executive Officer, Sustainable Urban Development, Ascendas-Singbridge
PLANNING

Session 2: Can We Create Inclusive Communities through Master Planning?

Cities have always hosted much diversity with people of different ethnicities, religions, social classes, ideologies and wealth co-existing in formal and informal settlements. As urbanisation continues apace globally, cities are no longer just centres of commerce, industry and political power. They also serve as havens to increasingly diverse communities. This session explores how cities can be planned so that they are more inclusive and accepting of diversity.

**Moderator:** Dr. Orna Rosenfeld, Senior Housing Expert and Adviser, United Nations Economic Commission for Europe

**Speakers:**
- Dr. Cheong Koon Hean, Chief Executive Officer, Housing and Development Board, Singapore
- Dr. Aisa Kirabo Kacyira, Deputy Executive Director and Assistant Secretary-General, UN-Habitat
- Alex Washburn, Former Chief Urban Designer, NYC Department of City Planning; Principal, DRAW Brooklyn LLC
- Abhishek Lodha, Managing Director, Lodha Group

RESILIENCE

Session 1: What Does It Take to Be an Environmentally and Economically Resilient City?

Climate change is one of the biggest global challenges today. Cities are exploring innovative solutions, building robust infrastructure, and working out new financing arrangements in a bid to mitigate and adapt to the effects of climate change. A resilient city continuously learns from its past experiences as well as from others, and takes an integrated and holistic approach to respond, adapt and recover. What should mayors and city leaders do to ensure their cities can quickly recover from shocks and even take advantage of new opportunities from these threats?

**Moderator:** Henk Ovink, Dutch Special Envoy, International Water Affairs, Netherlands

**Speakers:**
- Ahmed Aboutaleb, Mayor, Rotterdam
- Raisa Banfield, Vice Mayor, Panama City
- Kamlesh Yagnik, Chief Resilience Officer, Surat, India
- Jeremy Bentham, Vice President, Global Business Environment; Head of Shell Scenarios, Shell
- Jenny Bofinger-Schuster, Senior Vice President, Sustainability & Cities, Siemens

Session 2: Social Resilience – A Critical Component of a Liveable and Sustainable City

Urban resilience is about the capacity of individuals, communities, institutions, businesses and systems within a city to adapt and thrive despite stresses and acute shocks. Cities are becoming more connected digitally, yet there are increasing cultural differences, rising socio-economic disparities and aging infrastructure. By harnessing technology and social networks, dense urban populations provide many opportunities for creating connections and social support. Often, the appropriate social networks and capital are both the first and last lines of defence in times of crisis, be it terrorist attacks, financial crisis or natural disasters. How can we cultivate and build up the social resilience of cities?

**Moderator:** Michael Berkowitz, President, 100 Resilient Cities

**Speakers:**
- Erion Veliaj, Mayor, Tirana
- H.E. Dr. Eric Chu, Mayor, New Taipei City
- Oscar Santiago Uribe Rocha, Chief Resilience Officer, Medellin
- Dr. Emi Kiyota, Founder and President, Ibasho
- Emani Kumar, Deputy Secretary General, ICLEI – Local Governments for Sustainability
- Kent Martinussen, Chief Executive Officer, Danish Architecture Centre
- David Portas, Managing Partner, Portas Consulting

All speakers and information accurate as of time of 30 April 2018
**INNOVATION**

**Session 1: Disruptive Innovations – Bane or Boon for Cities?**

Cities around the world are riding the waves of advanced technology to create future-ready urban solutions tailored to their development needs. Technology-enabled innovations come with a slew of promises made to a city’s inhabitants – from improving public service delivery to anticipating and solving urban challenges, to building an inclusive and vibrant community. What structures and processes do cities need to readily embrace disruptive innovations?

**Moderator:** Viswa Sadasivan, Chief Executive Officer, Strategic Moves

**Speakers:**
- Dr. Vivian Balakrishnan, Minister, Ministry of Foreign Affairs; Minister-in-Charge of Smart Nation Initiative, Singapore
- Lord Mayor Martin Haese, Mayor, Adelaide
- Didier Holleaux, Executive Vice President, ENGIE
- Dr. Katsumi Emura, Executive Vice President, Chief Technology Officer and Member of Board, NEC Corporation
- Harriet Green, Head of Asia Pacific, IBM

**Session 2: Does Public-Private-People (3P) Collaboration Yield the Best Social Innovations?**

Social innovation is the process of developing and deploying solutions to address challenging and often systemic social and environmental issues. The rise of social innovation labs in recent years has encouraged new forms of cooperation between the people, public and private sectors. These labs typically focus on small neighbourhoods or precincts, and provide ample opportunities for prototyping and testing ideas to adapt to the needs of the society. How can local governments work with businesses, research institutions and citizens to create a healthy ecosystem that enables innovative solutions to thrive in cities?

**Moderator:** Nicholas Fang, Executive Director, Singapore Institute of International Affairs

**Speakers:**
- H.E. Tri Rismaharini, Mayor, Surabaya
- James Anderson, Head of Government Innovation, Bloomberg Philanthropies
- Dr. Jason Si Xiao, Executive Dean, Tencent Research Institute
- Dr. Goh Eng Lim, Vice President and SGI Chief Technology Officer, Hewlett Packard Enterprise
- Ling Hai, Co-President, Asia Pacific, MasterCard

For more information on the programme and speaker updates, visit [http://www.worldcitiessummit.com.sg/thematic-tracks](http://www.worldcitiessummit.com.sg/thematic-tracks)

---

**WORLD CITIES SUMMIT PLENARY**

**IS COLLABORATION THE PANACEA FOR LIVEABLE AND SUSTAINABLE CITIES OF THE FUTURE?**

**Date:** Tuesday, 10 July 2018  
**Time:** 2.00pm - 3.00pm

The WCS Plenary rounds off discussions over two days. It will pull together the insights and best practices, with a focus on embracing the future through innovation and collaboration. Cities are the sources and centres of innovation. Better collaboration between people-public-private is key to provide an enabling digital environment to support growth without stifling innovation, and ensure that people are not left behind amidst the fast pace of globalisation and urbanisation. While challenges from social unrest, environmental deterioration and economic stagnation are inevitable, city leaders can lead and affect real changes through good urban governance, prudent financing approaches and piloting of innovations.

**Chairperson:** Peter Ho, Chairman, Urban Redevelopment Authority; Former Head of Civil Service, Singapore

**Speakers:**
- Bambang Susantono, Vice President, Knowledge Management, Asian Development Bank
- Peter Bakker, President, World Business Council for Sustainable Development
- Prof. Geoffrey West, Distinguished Professor and Past President, Science Board, Science Steering Santa Fe Insitute

**Summary:** Dr. Liu Thai Ker, Chairman, Centre for Liveable Cities
WORLD CITIES SUMMIT THEMATIC FORUMS

SHAPING CITIES THROUGH INNOVATION AND COLLABORATION IN CULTURE
Co-Organised with Ministry Of Culture, Community and Youth, Singapore
Date: Tuesday, 10 July 2018  Time: 3.30pm – 6.00pm
Social fragmentation and technological disruptions are increasingly prevalent challenges faced by cities and their residents. For cities of the future to be liveable and sustainable, innovative and collaborative urban solutions will be critical. Going beyond existing standards of good governance and sound planning by authorities, cities need to rely on innovative uses of culture in collaboration with key stakeholders. How can cities meaningfully weave cultural elements into urban landscapes, to maximise their positive impact and social benefits for residents?

URBAN GOVERNANCE: SINGAPORE’S PRINCIPLES AND APPROACHES
Co-Organised with Civil Service College, Singapore
Date: Tuesday, 10 July 2018  Time: 3.30pm – 5.00pm
Interested to discuss Singapore’s approach to urban governance? This forum will feature local case studies that illustrate the city-state’s approach to urban governance and its underlying principles, and discuss how Singapore has managed to create a liveable and sustainable city to work, live and play in. The distinguished line-up of speakers will cover a range of examples, including infrastructure, social and economic domains.
Welcome Address: Peter Ho, Chairman, Urban Redevelopment Authority; Former Head of Civil Service, Singapore
Opening Speech: Peter Ong, Former Head of Civil Service, Singapore
Speakers: Hwang Yu-Ning, Chief Planner and Acting Deputy Chief Executive Officer, Urban Redevelopment Authority, Singapore
Dr. Mohamad Maliki bin Osman, Senior Minister of State, Ministry of Defence and Ministry of Foreign Affairs; Mayor, South East District, Singapore
Chng Kai Fong, Managing Director, Economic Development Board, Singapore

BUILDING AND GROWING A THRIVING URBAN FOOD ECO-SYSTEM
Co-Organised with Agri-Food & Veterinary Authority, Singapore
Date: Tuesday, 10 July 2018  Time: 3.30pm – 6.00pm
Amidst growing pressures on scarce food resources, rapid urbanisation rates and the impacts of climate change, there is a growing concern that global supply of food may not keep up with the growing demand. As a city state of about 730km², Singapore’s resources—land, water and electricity—face many competing uses. Currently, less than 1 per cent of the land is used for agricultural food production and more than 98% of Singapore’s food is imported. Fortunately, recent growth in innovative technologies in the agriculture sector has opened up opportunities for cities like Singapore, making it now possible for farms to “grow more with less”. Beyond technology innovations, what else would it take to build and grow a thriving food ecosystem in an urban environment? This session brings together experts in the field of cluster development and in the forefront of agri-technology innovation to discuss and provide insights on urban food solutions.
Opening Address: Lim Kok Thai, Chief Executive Officer, Agri-Food & Veterinary Authority, Singapore

BUSINESS AND CITY SOLUTIONS FORUMS

SOUTH ASIA IN PERSPECTIVE: BUSINESS OPPORTUNITIES FOR RISING URBAN NEEDS
Date: Tuesday, 10 July 2018  Time: 3.30pm – 5.00pm
India’s embrace of rapid urbanisation has been closely watched since its Prime Minister Narendra Modi launched the Indian Smart Cities mission in 2015, with the aim of developing 100 smart cities to enable sustainable and citizen-centric urban growth. While Andhra Pradesh builds a new capital city drawing on global best practices and invites cutting-edge urban solutions, Maharashtra customises sustainable practices to retrofit its existing cities. Together with other South Asian cities, the session will present business opportunities in cities with high urban growth rates looking to find ready solutions to their increasing demands.

CHINA INNOVATION FORUM: CHINA IN THE NEW ERA
Date: Wednesday, 11 July 2018  Time: 9.00am – 12.15pm
China is entering a new era of development and rapidly rising to become a leading, innovative world economy. No longer just the “Factory of the World”, China is at the forefront of new economy innovations like cashless payment, sharing economy, smart city and urban solutions. The Belt and Road Initiative is a landmark initiative announced by the Chinese leadership to promote inclusive and sustainable development, with innovation and collaboration as key thrusts of achieving this goal. This forum aims to share about China in the New Era and the various innovations China is embracing to achieve inclusive and sustainable development.

All speakers and information accurate as of time of 30 April 2018
Site visits are specially-designed, half-day tours that offer first-hand perspectives on how policies and ideas can be implemented successfully. They are available to registered delegates only. Additional fees apply.

For more information and to register, visit www.worldcitiessummit.com.sg

### Singapore River and Marina Bay

**Cycling Along the Singapore River and Marina Bay: An Attractive and Sustainable Precinct**

**Sunday, 8 July | 2.30pm - 6.00pm**

The Marina Bay area is an extension of the old Central Business District and a gem of modern Singapore. The area is planned based on environmentally-sustainable strategies with innovative supporting infrastructure systems. The Singapore River, once polluted and unsuitable for human and marine activities, has been transformed into a high-quality, 24/7 live-work-play environment that encapsulates the essence of the global city. This tour offers insights into what it took to bring about this urban transformation.

### Art and the City

**Gillman Barracks, Former Military Housing Turned Arts Hot Spot**

**Sunday, 8 July | 3.30pm - 6.00pm**

Tour this unique visual art cluster, surrounded by lush tropical greenery and set in conserved, former military barracks. Gillman Barracks is home to international and Singapore art galleries, research centre NTU Centre for Contemporary Art Singapore, and a children’s centre for creativity. Through this tour, delegates will gain an understanding of how collaborations in art and culture between the public, private and people sectors can help enhance a city.

### Our Tampines Hub

**Singapore’s Largest Integrated Community and Lifestyle Hub**

**Sunday, 8 July | 1.00pm - 4.00pm**

Visit this community-focused development that brings together multiple government agencies and offers a comprehensive range of services and facilities for residents. Our Tampines Hub celebrates the full sense of community through meaningful engagement, and enriches the urban life of residents through multiple experiences, empowering them to stake ownership of the hub.
BRINGING KALLANG RIVER INTO BISHAN-ANG MO KIO PARK
SINGAPORE’S FLAGSHIP ABC WATERS PROJECT
TUESDAY, 10 JULY | 3.30pm - 6.00pm

One of the largest and most popular parks in Singapore, Bishan-Ang Mo Kio Park was redeveloped in 2009 under the Active, Beautiful, Clean (ABC) Waters Programme. The Programme aims to bring people closer to water by beautifying utilitarian facilities, providing waterfront community spaces and improving water quality. The 2.7km-long concrete canal that ran along the length of the park has since been transformed into a meandering river that is surrounded by lush banks of wildflowers and well-integrated with nearby residences.

INTEGRATED PLANNING FOR QUALITY LIVING IN KAMPUNG ADMIRALTY & KHOO TECK PUAT HOSPITAL
ACTIVE AND GREEN LIVING IN COMMUNITY FACILITIES
WEDNESDAY, 11 JULY | 9.00am – 1.00pm

Aimed at promoting active living and social interaction within the community, Kampung Admiralty (Kampung meaning “Village” in Malay) is the first development in Singapore to fully integrate housing for elderly with a wide range of social, healthcare, communal and retail facilities. Designed for seniors to lead independent and active lifestyles, units come complete with elderly-friendly features. In parallel, branded as “garden in a hospital, hospital in a garden”, Khoo Teck Puat Hospital incorporates nature into its design to create a tranquil environment that promotes patients’ rehabilitation.

SINGAPORE BOTANIC GARDENS LEARNING FOREST
GREENING AND BIODIVERSITY IN THE CITY
TUESDAY, 10 JULY | 3.30pm - 6.00pm

The Singapore Botanic Gardens (SBG) is the first and only tropical botanic garden on the UNESCO’s World Heritage List. Established in 1859, SBG is a leading international institution of tropical botany and horticulture, and contributes greatly to the implementation of Singapore’s Garden City vision.
CO-LOCATED EVENTS

6 - 7 JULY
FRIDAY - SATURDAY
6TH MEETING OF GOVERNORS/MAYORS OF ASEAN CAPITALS
By the People’s Association of Singapore
Singapore will host the 6th Meeting of Governors/Mayors of ASEAN Capitals (MGMAC) in 2018. The programme line-up will allow mayors and governors to address liveable and sustainable city challenges with their peers, share experiences and insight, and forge partnerships and alliances for future collaborations. Started in 2013 by the Jakarta Governor, the MGMAC brings together governors and mayors from 50 Asian and Pacific cities in ASEAN to discuss a broad range of topics pertaining to the growth and development of cities.

9 - 11 JULY
MONDAY - WEDNESDAY
Z-ISLAND: THE LATEST URBAN EXPANSION AREA OF BILBAO
By Bilbao International
The city of Bilbao, Spain, won the inaugural Lee Kuan Yew World City Prize Laureate for its integrated and holistic approach to urban transformation. The metropolis is now embarking on its next phase, shifting from being a service provider city to a knowledge generator city. This conference will share the keys of Bilbao’s latest major urban re-development plan: The Z-Island. This integral and sustainable project will turn an old industrial district into a smart island, articulating the rebirth of a tech district in a well-connected city centre area.

10 JULY
TUESDAY
CO-CREATING OUR CITIES: CONVERSATIONS WITH STARTUPS, GOVERNMENTS AND CORPORATES WORKING TOWARDS MORE LIVEABLE CITIES
By ENGIE
ENGIE is inviting guests to discover emerging trends and solutions shaping cities across the world. Inspiring speakers, city representatives, startup entrepreneurs and corporations, will introduce their vision and present concrete tools to help companies and decision makers co-create better cities. Topics will include urban planning, developing sustainable infrastructure—particularly through cooling and urban networks—and tackling the challenge of integrating disruptive innovation into cities. The session will consist of a series of short and engaging pitches followed by a co-creation exercise.

8 JULY
SUNDAY
ASEAN SMART CITIES NETWORK INAUGURAL MEETING
By the Association of Southeast Asian Nations
Most of ASEAN’s growth is driven by urban centres, with 90 million more people expected to urbanise by 2030. This rapid urbanisation has implications on critical issues such as traffic congestion, security and air and water quality. Technological and digital solutions can be catalysts to resolve many of these issues, improving citizens’ lives and creating new opportunities. The ASEAN Member States recognise this and many have designated specific cities as smart cities or are launching smart city projects. The ASEAN Smart Cities Network is set up to synergise these efforts and is envisioned as a collaborative platform where ASEAN cities work towards the common goal of smart and sustainable urban development.

SHOW ME THE NUMBERS: IFHP SOCIAL CITIES INDEX
By International Federation for Housing and Planning
When it comes to quantifying sustainability, gauges for environmental impacts and economic consequences exist and are increasingly accessible; however, it remains a great challenge to put a measure on social sustainability. This event will review the International Federation for Housing and Planning’s current efforts as an implementation agent of United Nations 2030 Sustainable Development Goals and New Urban Agenda, as well as stress on the importance of partnerships and metrics that focuses on the social sustainability of cities and communities. Aiming to identify more indicators and foster partnerships, the event will kick-off with short presentations to spark discussion with and amongst the participants, followed by networking and informal dialogue.

INCLUSIVE HEALTHY PLACES – PRACTICAL ADVICE ON INCLUSION AND HEALTH IN PUBLIC SPACE
By Cities Changing Diabetes, Gehl and C40
Everyday environments play a fundamental role in shaping how healthy we are as individuals and communities. The two sessions aim to solicit feedback from participants on a new framework for creating inclusive and healthy places, and to discuss how quality public spaces fit into a broader culture of health. Gehl will be presenting case studies on mobility, healthy food systems and best-practice public space design; C40 will be presenting on reflections regarding to climate change; while Cities Changing Diabetes will be focusing on health.

10 JULY

SOCIAL RESILIENCE THROUGH SPORT & PHYSICAL ACTIVITY
By SportsSG and Portas Consulting
Sports and physical activity have been proven to improve physical health, deliver economic benefits and generate greater social cohesion. Yet policy-makers still grapple with the challenges of developing comprehensive metrics that support decision making. Active Citizens Worldwide was launched in partnership by Singapore, London and Auckland, to demonstrate the value of an active lifestyle and identify strategies that would maximise impact. The cities will showcase unique insights on the societal return of a more active city with an open discussion around the drivers of physical activity and its ability to build resilience.

10 - 12 JULY

ICOST CONFERENCE – DESIGNING A BETTER FUTURE – URBAN ASSISTED LIVING
By Image and Pervasive Access Laboratory
With 2018 marked as the French–Singaporean Year of Innovation, ICOST will present and discuss research findings to tackle challenges for both countries pertaining to smart urban environments, assistive technologies for smart cities, internet of things, smart urban spaces and intelligent environments. This year’s Conference will focus on urban assisted living, where solutions will target to improve the quality of life for people at risk of seclusion in smart cities. Over two and a half days, invited delegates will get to present and discuss their experiences, alongside a dynamic line-up of keynote speakers, panel discussions, demonstrations and technical exhibits.

11 JULY

TRANSFORMATIVE RESEARCH FOR FUTURE CITIES: A GLOBAL NETWORK
By Future Cities Laboratory
The Future Cities Laboratory has launched an ambitious vision to create a global research network and invites you to help shape it at this symposium. By 2050 an additional 2.5 billion people will be living in cities; designing, planning and managing the future cities that will accommodate these urbanising populations cannot follow current resource-intensive norms. The scale and complexity of urbanisation calls for deeper and broader collaboration amongst scientists, planners, designers, artists and city makers in government, industry, and civil society. This symposium will showcase examples of cutting-edge transformative research on high density cities and building more responsive and inclusive cities, describe the vision, and provide an opportunity to enrich it.

11 JULY

SCIENCE AND THE SUSTAINABLE CITY
By Springer Nature
As the climate changes, population grows, and energy and water needs soar, cities represent one of the biggest challenges—and biggest hopes—for achieving truly sustainable development. Globally respected academic publisher Springer Nature will launch a summit to bring together city leaders with leading experts on urban sustainability. Science and the Sustainable City will feature four panel discussions on urban science, biophilic urbanism in designing a healthy city, Singapore as a living laboratory, and sustainable waste management with technology and big data analysis. The keynote address will be delivered by Bernard Meyerson, Chief Innovation Officer of IBM and appointee to Singapore’s International Advisory Panel on Urban Solutions and Sustainability.

11 JULY

COOLING SINGAPORE SYMPOSIUM: MITIGATING URBAN HEAT ISLAND EFFECT
By Singapore–ETH Centre
Singapore is warmer than it has to be due to the Urban Heat Island effect, a man-made phenomenon affecting large and densely populated cities. Global climate change and urbanisation will cause urban temperatures to rise further with the potential to present serious threats to the economy, society and health of the urban population. The Cooling Singapore team will present a UHI mitigation roadmap to guide policy-making and help coordinate long-term mitigation efforts and R&D activities. The research was conducted by a multidisciplinary team led by the Singapore–ETH Centre in collaboration with NUS, SMART and TUMCREATE.

CITY SOLUTIONS SINGAPORE
Connect with Key City Players

Make meaningful connections at City Solutions Singapore (CSS) – it is the preferred global platform to showcase new and cutting-edge solutions for smart nations and urban environments. With over 21,000 visitors in 2016, from 125 countries and regions, CSS provides the catalyst to seek new partnerships and business opportunities. The participation of over 1,000 companies makes CSS an international marketplace of choice for stakeholders across the value chain of sustainable development.

Featuring over 20 country pavilions, the integrated expo in 2018 will cover over 31,000 sqm and comprise four overarching themes – Water Expo @ CSS, Cities @ CSS, Environment @ CSS and Transport @ CSS. Few other exhibitions in the world cover these key sectors in such an integrated manner that creates tremendous synergy for both the exhibitors and visitors.

For more information on partnership or exhibition opportunities, please contact Kimberly Wee at kimberlywee@experiaevents.com

Companies incorporated in Singapore are eligible to claim up to 50% International Marketing Activities Programme (iMAP) funding should they participate in the Singapore Pavilion at Cities @ CSS.

PARTNERSHIP OPPORTUNITIES
World Cities Summit – Your Preferred Business Network

HOW YOU CAN BENEFIT

Leverage on Singapore’s ASEAN Chairmanship for 2018. Use this opportunity to reach out to more ASEAN cities in this congregation of distinguished ministers, mayors and city leaders. As of 30 April, we have over 500 mayors, city and industry leaders who will be joining us at WCS, and we are targeting to hit a record high of welcoming more than 120 mayors to the Summit.

Bring your brand directly to your most valued target audience. An unrivalled week in Singapore that gathers the top leaders from both public and private sectors, the World Cities Summit is the platform to showcase your company’s thought leadership and innovative urban solutions. This is a premium outreach channel for your brand to stand out to your target audience.

Uncover new opportunities by connecting with key decision-makers from around the world. The participants in attendance are high-level decision makers, as well as thought leaders from international organisations and academia. Leverage on extensive networking opportunities and exclusive events to engage these leaders, forge global partnerships, and develop business opportunities.

As our partner, you can tap on our comprehensive marketing solutions and strategic engagement of multiple stakeholders, as well as the media. There are also à la carte collaterals and networking events available for corporate sponsorship. Contact Kimberly Wee at kimberlywee@experiaevents.com to discuss how you can enhance your brand image globally, increase your brand visibility, and make valuable contacts.
Imagine Singapore in 2035. What could our future city look like in light of the opportunities and challenges we have? Themed “Liveable & Sustainable Cities: Embracing the Future through Innovation and Collaboration”, the Singapore Government Pavilion envisions a tomorrow pulled together by the government, research institutions, agencies, industries and the community. It will showcase innovative solutions across transportation, security, food and energy, climate change, space management and digital capabilities.

This pavilion roadmaps Singapore’s progress in developing integrated urban solutions, building economic, environmental, physical and social resilience, and engaging with communities. Through live demonstrations and interactive media displays, the showcases will immerse you in the developments of cutting innovations that are already a reality or in the pipeline. Come share your experiences on common challenges, communicate collaboration opportunities, and take a stake in our liveable and sustainable future.
