**Who are affected?**
Importers, manufacturers, distributors, retailers, contractors and others who supply lamps in Singapore.

**What types of lamps will be covered?**
MELS & MEPS will cover the following lamps*:

| Incandescent lamps (25 -200W) | • Non-directional  
| Compact fluorescent lamps (≤60W) | • ≥130 lumens  
| LED lamps (≤60W) | • Edison or Bayonet caps  
| | • With integrated ballasts  

*Special purpose lamps are excluded

**What must be done?**

- **REGISTER**
  yourself & your products if you are a supplier

- **AFFIX**
  the Energy Label on your products

- **COMPLY**
  with minimum energy performance standards

Supply of goods imported before Jul 2015 are excluded from MELS & MEPS requirements up till 30 Jun 2016. **From 1 July 2016, all registrable lamps must comply fully with the requirements.**

More details on the mandatory energy labelling and minimum energy performance standards for household appliances can be found at: [http://www.nea.gov.sg/els](http://www.nea.gov.sg/els)
