Site Investigation/Soil Investigation Accreditation Scheme: Technical Assessors

“The Singapore Accreditation Council [which is part of SPRING Singapore] would like to invite interested Professional Engineers to be SAC Technical Assessor for the Site Investigation Accreditation Scheme.

Roles of a Technical Assessor:

As a SAC Technical Assessor, they will form part of the assessment/audit team who will go down to the SI companies to conduct an audit/assessment.

Below is a summary of the roles that a Technical Assessor plays.
- To conduct the technical part of the audit/assessment (e.g. Observe inspection activities and assess whether workers are competent)
- Make recommendations on whether the company is technically competent
- Help to improve the quality and standard of the Geotechnical industry

If you have any enquiries, kindly contact Marcus at 6279 3372 or Jordan at 6279 3342.”
