What to Expect at WCS 2018

**LEE KUAN YEW WORLD CITY PRIZE LECTURE**

**Monday, 9 July 2018**

1.30pm - 2.15pm

The Prize Lecture is one of the key highlights at the World Cities Summit. Delivered by the 2018 Prize Laureate, Seoul, the lecture is a platform that celebrates the Laureate’s achievements in the creation of liveable, vibrant, and sustainable urban communities with a high quality of life.

**Speaker:**

H.E. Park Won Soon, Mayor, Seoul

**Moderator:**

Dr. Cheong Koon Hean

Chief Executive Officer, Housing and Development Board, Singapore

**LEE KUAN YEW WORLD CITY PRIZE FORUM**

**Monday, 9 July 2018**

3.00pm - 5.00pm

Hear from 2018 Special Mention cities, Hamburg, Kazan, Surabaya and Tokyo, on their diverse urban development experiences as case studies for cities around the world. Each speaker will present their unique content, the challenges faced, and the urban solutions deployed.

**Moderators:**

Prof. Marilyn Jordan Taylor

Professor of Architecture and Urban Design, University of Pennsylvania

Wong Mun Summ, Founding Director, WOHA Architects
WORLD CITIES SUMMIT PLENARY: IS COLLABORATION THE PANACEA FOR LIVEABLE AND SUSTAINABLE CITIES OF THE FUTURE?

Tuesday, 10 July 2018
2.00pm - 3.00pm

The World Cities Summit Plenary Session will round off discussion over two days and pull together the insights and best practices in governance, planning, resilience and innovation, with a focus on the development of liveable and sustainable cities for the future. It will also reiterate the importance of collaboration between city leaders and urban stakeholders to co-create liveable, competitive and sustainable environments.

Moderator:
Peter Ho, Chairman of Urban Redevelopment Authority and Former Head of Civil Service, Singapore

Panellists:
Lucy Turnbull, Chief Commissioner, Greater Sydney Commission
Bambang Susantono, Vice President, Knowledge Management, Asian Development Bank
Peter Bakker, President, World Business Council for Sustainable Development
Prof. Geoffrey West, Distinguished Professor and Past President, Science Board, Science Steering Committee, Santa Fe Institute

Summary Speaker:
Dr. Liu Thai Ker, Chairman, Centre for Liveable Cities

Co-Located Events at WCS 2018

TRANSFORMATIVE RESEARCH FOR FUTURE CITIES: A GLOBAL NETWORK

Date: 11 July 2018 (Open - Registration Required)
Organised by: Future Cities Laboratory at The Singapore-ETH Centre

The Future Cities Laboratory (FCL) launches an ambitious vision to create a global research network focused on "Transformative Research for Future Cities", and invites you to help shape it at this symposium. The unprecedented scale and complexity of urbanization calls for deeper and broader collaboration between scientists, planners, designers, artists and city makers in government, industry and civil society. Building on foundations established by FCL in Singapore and ETH Zurich in Europe, the network we envision will generate new paradigms for sustainable future cities. The symposium will showcase examples of cutting-edge transformative research on high density and building more responsive and inclusive cities, describe the vision, and provide an opportunity to enrich it.

COOLING SINGAPORE

Date: 11 July 2018 (Open - Registration Required)
Organised by: Cooling Singapore, Singapore-ETH Centre

Singapore is warmer than it has to be - by as much as 7°C in some places. This is due to the Urban Heat Island (UHI) effect, a well-known man-made phenomenon affecting large and densely populated cities. The Cooling Singapore team will present a UHI mitigation roadmap to guide policy and help coordinate long-term UHI mitigation efforts and R&D activities. The research is conducted by a multi-disciplinary team led by the Singapore-ETH Centre in collaboration with colleagues from NUS, SMART, and TUM CREATE. The team will share their experience in gathering inputs from government, the research community, and private sector in developing the roadmap, and present findings from the project.
The Urban Land Institute (ULI) works with cities around the world to share best practices in land use and real estate development through the Advisory Services Programme, a 71-year-old initiative that has completed over 600 panels in 47 states, 12 countries, and four continents. The session's discussion leaders have participated as panelists on these projects, and will share lessons learnt, best practices from each project, and the impact the Advisory Services Programme has had across all communities.

City Portraits: Rotterdam - Healthy Food for Everyone

Rotterdam's Food Garden is not a normal garden. Set up in 2010, the Garden harvests fresh and healthy vegetable and fruits to supply the Food Bank Rotterdam - an organisation that delivers free food packages to low-income households.

With no fertilizer and chemical pesticides being used, and having enough space for different crops and species to grow at the same time, the Garden was designed to ensure both ecological sustainability and economic viability.

This social initiative champions a healthy city, supporting a sustainable urban society without poverty and social exclusion and with fresh food for everybody.

Rotterdam's story, along with other city features, will be published in an e-Publication, City Portraits, during WCS 2018. There will also be a digital showcase exhibition at Level 5 of the Summit.

Sponsor Feature: Hewlett Packard Enterprise Showcase

Join Hewlett Packard Enterprise (HPE) subject matter experts at the HPE hospitality suite where we will showcase three key innovation areas in a digital city - Smart Lighting, Smart Transport, and Smart Surveillance. You will be able to explore our success stories about Smart Lighting in Taoyuan, Taiwan; get insights into how big data analytics is used to support Smart Public Transport planning; and discover Smart Surveillance - an end-to-end security solution featuring video analytics and video synopsis. Visit the HPE hospitality suite at Room 4211, Level 4!}
