Dear Industry Professionals,

1. PUB had issued a circular in Aug 2012 (Circular Reference: WSN 92413/90 dated 12 Aug 12) and wish to reiterate to Professional Engineers / Licensed Plumbers that only Cement Lined Ductile Iron (CLDI) pipes/fittings that comply with BS EN 545:2010 shall be used for potable water applications wef 1 Sep 13.

2. In conjunction with this, PUB also wish to remind that DI pipes/fittings for Sewerage applications shall comply with BS EN 598: 2007 with internal lining of high alumina cement (HAC) mortar. Hence QPs and Plumbers shall use the correct pipes/fittings and suppliers of DI pipes/fittings shall to ensure the proper marking of the respective DI pipes/fittings, ie. BS EN 545:2010 for potable water use and BS EN 598: 2007 for sewerage use.

3. Please contact the below PUB officers should you have any query.
   (a) Potable water application - Mr Lee Cai Jie at Tel 6731 3250
   (b) Used water application - Mr Steven Cheong at Tel 6731 3339

Thank You.

Best Regards,
Project Manager
