Get BIM Ready!

Take the Autodesk BIM Workshop @ Singapore Construction Productivity Week 2013

REGISTER NOW

Join us at the Autodesk BIM Workshop, held in conjunction with Singapore Construction Productivity Week 2013 to support BCA's Construction Productivity Roadmap and help accelerate BIM adoption in Singapore.

We'll take you through the support materials, tools, templates, framework and the "how-tos", based on real-world applications to help you adopt BIM for different disciplines, and meet the regulatory guidelines.

This workshop consist of five sessions with different focus areas. Please register for the session(s) that you would like to attend. Find out more here.

AGENDA

9:00am to 10:30am
Session 1 : How to use BIM model to prepare documentation for tender drawings and production

10:50am to 12:20pm
Session 2 : Integrating BIM into a sustainable design process

2:00pm to 3:30pm
Session 3 : Extending the BIM model to MEP fabrication

3:50pm to 5:20pm
Session 4 : Planning and designing of sustainable infrastructure using BIM

Complimentary session*
1:00pm to 1.45pm
Maximizing your BIM workflow with collaboration and data management
*only available for attendees who have registered for at least one paid session.
