FACILITIES MANAGEMENT CONFERENCE 2014
16 October 2014 | MAX Atria @ Singapore EXPO | 8.30 am to 6 pm

Transforming Facilities Management through Innovation & Productivity

www.fmse.sg/conference

Organised by:  
Supporting Organisations:

Co-located with:

Held concurrently with:

BuildTech Asia 2014
International Building Technology Expo
The facilities management industry is burgeoning in Asia. There is increased emphasis for building owners to develop their properties in a cost effective and energy conscious manner. This sector is growing in demand and its professionals are constantly searching for skills, knowledge and support services to upgrade themselves.

The inaugural staging of Facilities Management Conference aims to address the transformation of facility management through effective and productive use of resources and smart innovation.

Facilities Management Conference provides an ideal platform that empowers professionals with the necessary skills, knowledge and insights through the exchange of ideas from a group of noteworthy local and international speakers.

Why Attend?

This one day conference aims to connect business and industry professionals in an all-encompassing and educational journey for facility management and its related professions in Asia.

The conference addresses issues on sustainability in the built environment, through innovative energy management whilst exploring effective strategies on facilities management, security systems, productivity and security, fire and safety as well as workplace safety and health, in an environment where manpower crunch is prevalent in this industry.

Don’t miss this opportunity to broaden your network and expand your knowledge base through interactive sessions with facility managers, building owners, architects, engineers, town planners, quantity surveyors and government agencies.
