FIDIC INTERNATIONAL TRAINING PROGRAMME

FIDIC Contract Module 1: Practical Use of the FIDIC Contracts

Programme: two-day seminar or training course (also available as a one-day course or seminar)

This practical training course or seminar, provided by professional engineers with extensive international experience, explains and illustrates the use of the FIDIC Conditions of Contract for Construction (the “Construction Contract”) and the FIDIC Conditions of Contract for Plant and Design-Build (the “Design-Build Contract”). The course is designed to help the participants have confidence in working with these documents whether representing employers, consultants or contractors. Case studies are included.

**Construction Contracts Workshops by Malith Mendis**

-- Feedback

“Just again want to let you know everyone one was really appreciative about the training we had in FIJI”
– Laxman Attanayake, Chief Operating Officer, Water Authority of Fiji

“We have already started sharing the idea of effectively using the works program to capture daily events of significance among all members of our contract management team thanks to you”
- Iliesa Rakaseta, Housing Authority, Fiji

“The course is really good and the presentation is outstanding, Am sure it will help my career”
- Welshman Baoro, Chief Infrastructure Officer, National Judiciary High Court Of Solomon Islands

“I very much enjoyed the workshop, and I am using the delay protocol document as a resource in one of my pending cases.”
- Mary Muir, Attorney-at-Law, Siwatibau & Sloan, Fiji

“The Training was excellent. Thanks to Mr Mendis”
- Dan Mu’a, Chairman, Transworks Construction, Western Samoa

“The course is precious to me and has given me confidence.”
- Harold Trasel, Ministry of Infrastructure Development, Solomon Islands

“Thanks for all the information you have presented to us on FIDIC Contracts. It would be of my greatest good to be informed of any developments of running a workshop of similar nature within the South Pacific Countries in the near future.”
- Mahlon Bonga, Projects Engineer, Vanuatu Public Works Department

“Its been a great training for us, the course has built contracting knowledge on FIDIC to another level.”
- Harry Rini, Director, CPIU, Ministry of Infrastructure Development, Solomon Islands

“Thank you very much for taking the course here in Fiji. I found it very useful and enjoyable. I have already used the delay and disruption protocol in advising one of my clients here. Looking forward to more courses!”
- Atu Siwatibau, Partner, Siwatibau & Sloan, Fiji
“The workshop was great my new understanding in contracts is helping me do better compliance on contract payments.”
- Leslie Penibanga, Ministry of Finance, Solomon Islands

“It's a pleasure to have met such an experience people like you and the presentation was excellent. It's is an eye opener for both the implementing agencies and the contractors. For a long time the implementing agencies, especially the government have used limited knowledge to interpret the FIDIC resulting in both losing their rights sometimes.”
- Dereck Kolly, Hatanga Ltd, Solomon Islands

“Certainly was an eye opener for all of us here in Solomon islands!”
- Angeline Hatimoana, Construction Administrator & Procurement, Hatanga Ltd, Solomon Islands

“The course is precious to me and has given me confidence.”
- Harold Trasel, Ministry of Infrastructure Development, Solomon Islands

“Thank you for the very needed training that you have conducted in here. It’s really an eye opener as we are used to AS and other standards but at least the Ministry of Finance and the government now resorted to FIDIC guidelines and are using it in all its procurements. It is also timely, and really put in perspective the FIDIC guidelines.”
- Patteson Fakave, Architect, DABS, Ministry of Infrastructure Development, Solomon Islands
