NOT IF, BUT WHEN
Are you aware?

Resilience in age of terrorism:
AN ENGINEER’S PERSPECTIVES
14 June 2017 (Wed) | 2.00 pm to 4.30 pm | BCA Academy, Academic Tower, Auditorium

Terrorism: Beyond and Beneath the Tip of the Iceberg – Understanding & Mitigating the Insider Threat
Munis Pilla
Senior Vice President
International Institute of Security and Crisis Management (IICM)
Terrorism Risks and Infrastructure Resilience

The real danger of Terrorism, Terrorist and Terror is far more than the attacks and incidents that we see around the world.
What we see is the tip of the iceberg. What lies beneath is the actual threat of those amount us whom we are not able to know or recognize or pin point as sympathizers, supporters or followers of a terrorist organisation.
The lecture will explore beyond the frontiers of this reasoning. What lies beneath and what seems normal maybe abnormal. We now live in an era of a new norm: the unprecedented and the element of surprise is a sure. We need to be ready to face the Black Swan within the inside.

Terrorism Risks And Infrastructure Resilience
Professor Mark G Stewart
Director, Centre of Infrastructure Performance and Reliability
The University of Newcastle

A key motivation for much research on protective structures is terrorism or insurgency attacks as witnessed by the Oklahoma City bombing, 777 attacks in London and other bombings worldwide.
An improved understanding of the threat allows decision-makers to more effectively deploy resources to counter such threats, which includes appropriate design and assessment of civilian and military protective structures.
The lecture will describe infrastructure resilience to terrorist attacks, and discuss the nature of resilience and its impact on society under these threats.

TIME PROGRAMME
1.45 pm  Registration
2.00 pm  Welcome and introduction
2.05 pm  LECTURE #1: Terrorism: Beyond and Beneath the Tip of the Iceberg
- Understanding & Mitigating the Insider Threat
  Munis Pilla
2.50 pm  LECTURE #2: Terrorism Risks And Infrastructure Resilience
  Prof Mark G Stewart
3.45 pm  Course preview for BCM and BICE
  IDEO – Dr Ali RajabiPour
4.05 pm  Refreshment & Networking
