10 JUL 2018 TO 10 JUL 2018

INDOOR AIR QUALITY ON CONSTRUCTION SITES - 1st Run

This course aims to present an overview of the indoor air quality health hazards that may be encountered by personnel on a construction site environment, addressing questions such as: What are some indoor air contaminants and where do they come from? How do these contaminants get into the body, and what are the health effects they can cause? Finally, what are some measures and good work practices that can be taken to address these indoor air quality concerns?

Venue
IES Academy@ Jurong East 80
Jurong East St 21 #04-10 Devan
Nair Institute Singapore 609607

Date and Time
10 Jul 2018 to 10 Jul 2018

6 AUG 2018 TO 6 AUG 2018

1-DAY SHORT COURSE ON STRUCTURAL ENGINEERING FAILURES (12th Run)

Collapse is every engineer's worst nightmare. Fortunately, not every engineer must go through the experience of a collapse first-hand as we can all learn from the mistakes of others. This course aims to impart knowledge by way of sharing examples of structural engineering failures so engineers can learn how not to repeat such mistakes. It will also cover the relevant areas of SS EN 1992 series on Design of Concrete Structures, with reference to structural engineering failures.

Venue
IES Academy@ Jurong East 80
Jurong East St 21 #04-10 Devan

Date and Time
6 Aug 2018 to 6 Aug 2018
0900 to 1715
