INNOVATİNG TRANSPORT FOR LIVEABLE CITIES

Innovative Solutions for Urban Transportation
From 19 - 21 October 2016, the second edition of SITCE will bring together authorities, policy-makers, public transport operators, transport and urban planners, consultants, solution providers, engineers and contractors to discuss challenges and share best practices and solutions.

The Exhibition
The 3-day trade exhibition will feature over 200 international exhibitors showcasing solutions for urban transport planning and operations management systems. Manufacturers and solutions providers can expect to meet over 5,000 regional buyers and policy makers. Exhibitor profiles include:

- Construction and materials
- Consulting, planning and design
- Systems, electronics and IT
- Mass transport (Rail/bus) and transport operators
